(Code of Iowa, Sec. 364.1)

1.04 INDEMNITY. The applicant for any permit or license under this Code of Ordinances, by making such application, assumes and agrees to pay for all injury to or death of any person or persons whomsoever, and all loss of or damage to property whatsoever, including all costs and expenses incident thereto, however arising from or related to, directly, indirectly or remotely, the issuance of the permit or license, or the doing of anything thereunder, or the failure of such applicant, or the agents, employees or servants of such applicant, to abide by or comply with any of the provisions of this Code of Ordinances or the terms and conditions of such permit or license, and such applicant, by making such application, forever agrees to indemnify the City and its officers, agents and employees, and agrees to save them harmless from any and all claims, demands, lawsuits or liability whatsoever for any loss, damage, injury or death, including all costs and expenses incident thereto, by reason of the foregoing. (Code of Iowa, Sec. 718.5)

If consent to enter upon or inspect any building, structure or property pursuant to a municipal ordinance is withheld by any person having the lawful right to exclude, the City officer or employee having the duty to enter upon or conduct the inspection may apply to the Iowa District Court in and for the County, pursuant to Section 808.14 of the Code of Iowa, for an administrative search warrant. CHAPTER 46

MINORS

46.01 Curfew

46.02 Cigarettes and Tobacco

46.03 Contributing to Delinquency

46.01 CURFEW. The Council has determined that a curfew for minors is necessary to promote the public health, safety, morals and general welfare of the City and specifically to reinforce the primary authority and responsibility of adults responsible for minors; to protect the public from the illegal acts of minors committed after the curfew hour; and to protect minors from improper influences and criminal activity that prevail in public places after the curfew hour.

1. Definitions. For use in this section, the following terms are defined:

A. “Emergency errand” means, but is not limited to, an errand relating to a fire, a natural disaster, an automobile accident or any other situation requiring immediate action to prevent serious illness, bodily injury or loss of life.

B. “Knowingly” means knowledge which a responsible adult should reasonably be expected to have concerning the whereabouts of a minor in that responsible adult’s custody. This is an objective standard. It shall, therefore, be no defense that an adult responsible for a minor was completely indifferent to the activities or conduct or whereabouts of the minor.

C. “Minor” means any unemancipated person under the age of eighteen (18) years.

D. “Nonsecured custody” means custody in an unlocked multipurpose area, such as a lobby, office or interrogation room which is not designed, set aside or used as a secure detention area, and the person arrested is not physically secured during the period of custody in the area; the person is physically accompanied by a law enforcement officer or a person employed by the facility where the person arrested is being held; and the use of the area is limited to providing nonsecured custody only while awaiting transfer to an appropriate juvenile facility or to court, for contacting of and release to the person’s parents or other responsible adult or for other administrative purposes; but not for

longer than six (6) hours without the oral or written order of a judge or magistrate authorizing the detention. A judge shall not extend the period of time in excess of six hours beyond the initial six-hour period.

E. “Public place” includes stores, parking lots, parks, playgrounds, streets, alleys and sidewalks dedicated to public use; and also includes such parts of buildings and other premises whether publicly or privately owned which are used by the general public or to which the general public is invited commercially for a fee or otherwise; or in or on which the general public is permitted without specific invitation; or to which the general public has access. For purposes of this section, a vehicle or other conveyance is considered to be a public place when in the areas defined above.

F. “Responsible adult” means a parent, guardian or other adult specifically authorized by law or authorized by a parent or guardian to have custody or control of a minor.

G. “Unemancipated” means unmarried and/or still under the custody or control of a responsible adult.

2. Curfew Established. It is unlawful for any minor to be or remain upon any of the alleys, streets or public places or to be in places of business and amusement in the City between the hours of eleven o’clock (11:00) p.m. and six o’clock (6:00) a.m. of the following day.

3. Exceptions. The following are exceptions to the curfew:

A. The minor is accompanied by a responsible adult.

B. The minor is on the sidewalk or property where the minor resides or on either side of the place where the minor resides and the adult responsible for the minor has given permission for the minor to be there.

C. The minor is present at or is traveling between home and one of the following:

(1) Minor’s place of employment in a business, trade or occupation in which the minor is permitted by law to be engaged or, if traveling, within 30 minutes after the end of work;

- (2) Minor's place of religious activity or, if traveling, within 30 minutes after the end of the religious activity;
 - (3) Governmental or political activity or, if traveling, within one hour after the end of the activity;
 - (4) School activity or, if traveling, within 30 minutes after the end of the activity;
 - (5) Assembly such as a march, protest, demonstration, sit-in or meeting of an association for the advancement of economic, political, religious or cultural matters, or for any other activity protected by the First Amendment of the U.S. Constitution guarantees of free exercise of religion, freedom of speech, freedom of assembly or, if traveling, within 30 minutes after the end of the activity.
- D. The minor is on an emergency errand for a responsible adult;
- E. The minor is engaged in interstate travel through the City beginning, ending or passing through the City when such travel is by direct route.
4. Responsibility of Adults. It is unlawful for any responsible adult knowingly to permit or to allow a minor to be in any public place in the City within the time periods prohibited by this section unless the minor's presence falls within one of the above exceptions.
5. Enforcement Procedures.
- A. Determination of Age. In determining the age of the juvenile and in the absence of convincing evidence such as a birth certificate or driver's license, a law enforcement officer on the street shall, in the first instance, use his or her best judgment in determining age.
- B. Grounds for Arrest; Conditions of Custody. Grounds for arrest are that the person refuses to sign the citation without qualification; persists in violating the ordinance; refuses to provide proper identification or to identify himself or herself; or constitutes an immediate threat to the person's own safety or to the safety of the public. A law enforcement officer who arrests a minor for a curfew violation may keep the minor in custody either in a shelter care facility or in any non-secured setting. The officer shall not place bodily restraints, such as handcuffs, on the minor unless the minor physically resists or threatens physical violence

when being taken into custody. A minor shall not be placed in detention following a curfew violation.

C. Notification of Responsible Adult. After a minor is taken into custody, the law enforcement officer shall notify the adult responsible for the minor as soon as possible. The minor shall be released to the adult responsible for the minor upon the promise of such person to produce the child in court at such time as the court may direct.

D. Minor Without Adult Supervision. If a law enforcement officer determines that a minor does not have adult supervision because the law enforcement officer cannot locate the minor's parent, guardian or other person legally responsible for the care of the minor, within a reasonable time, the law enforcement officer shall attempt to place the minor with an adult relative of the minor, an adult person who cares for the child or another adult person who is known to the child.

6. Penalties.

A. Responsible Adult's First Violation. In the case of a first violation by a minor, the law enforcement officer shall, by certified mail, send to the adult responsible for the minor, written notice of the violation with a warning that any subsequent violation will result in full enforcement of the curfew ordinance against both the responsible adult and minor, with applicable penalties.

B. Responsible Adult's Second Violation. Any responsible adult as defined in this section who, following receipt of a warning, knowingly allows the minor to violate any of the provisions of this section is guilty of a simple misdemeanor.

C. Minor's First Violation. In the case of a first violation by a minor, the law enforcement officer shall give the minor a written warning, which states that any subsequent violation will result in full enforcement of the curfew ordinance against the responsible adult and the minor, with applicable penalties.

D. Minor's Second Violation. For the minor's second and subsequent violations of any of the provisions of this section, the minor is guilty of a simple misdemeanor.

46.02 CIGARETTES AND TOBACCO. It is unlawful for any person under eighteen (18) years of age to smoke, use, possess, purchase or attempt to

purchase any tobacco, tobacco products, alternative nicotine products, vapor products or cigarettes. The City shall be under no duty to attempt the confinement or capture of a dangerous animal or vicious animal found at large, nor shall it have a duty to notify the owner of such animal prior to its destruction.
2. Upon the complaint of any individual that a person is keeping, sheltering or harboring a dangerous animal or vicious animal on premises in the City, the Mayor, or his designee shall cause the matter to be investigated and if after investigation, the facts indicate that the person named in the complaint is keeping, sheltering or harboring a dangerous animal or vicious animal in the City, the Mayor or his designee shall order the person named in the complaint to safely remove such animal from the City or destroy the animal within three (3) days of the receipt of such an order. The hearing of such appeal shall be scheduled within ten (10) days of the receipt of the notice of appeal. The person filing the notice of appeal must be present at the hearing. This provision does not relieve such driver from the duty to drive with due regard for the safety of others.

3-3-13 OPERATION ON APPROACH OF EMERGENCY VEHICLES. Upon the immediate approach of an authorized emergency vehicle with any lamp or device displaying a red light or flashing red light from directly in front thereof, or when the driver is giving audible signal by siren, exhaust whistle or bell, the driver of every other vehicle shall yield the right-of-way and shall immediately drive to a position parallel to and as close as possible to the right-hand edge or curb of the highway clear of any intersection and shall stop and remain in such position until the authorized emergency vehicle has passed, except when otherwise directed by a police officer.

3-3-14 CHANGING STATE SPEED LIMITS IN CERTAIN ZONES. It is hereby determined that the speed permitted by State law upon the following

streets or portions thereof is greater or less than is necessary for the safe operation of vehicles thereon, and it is hereby declared that the maximum speed limit upon these streets or portions thereof described shall be as follows:

1. Increased speed limit: NONE
2. Lower speed limit: NONE

TURNING MOVEMENTS

3-3-15 TURNING MARKERS, BUTTONS AND SIGNS. The Council may cause markers, buttons or signs to be placed within or adjacent to intersections and thereby require and direct, as traffic conditions require, that a different course from that specified by the State law be traveled by vehicles turning at intersections, and when markers, buttons or signs are so placed, no driver of a vehicle shall turn a vehicle at an intersection other than as directed and required by such markers, buttons or signs, including right-hand turns at intersections with automatic traffic signals.

3-3-16 AUTHORITY TO PLACE RESTRICTED TURN SIGNS. The Council is hereby authorized to determine those intersections, as traffic conditions require, at which the drivers of vehicles shall not make a right or left turn. TRAFFIC CONTROL DEVICES**3-3-19 AUTHORITY TO INSTALL TRAFFIC-CONTROL DEVICES.**

The Council shall cause to be placed and maintained traffic control devices when and as required under this Code of Ordinances, to make effective its provisions, and may so cause to be placed and maintained such additional emergency or temporary traffic control devices for the duration of an emergency or temporary condition as traffic conditions may require to regulate traffic under this traffic code or under State law, or to guide or warn traffic. All traffic-control devices shall comply with standards established by the Manual of Uniform Traffic Control Devices for Streets and Highways.

3-3-22 STOP OR YIELD AT INTERSECTING THROUGH HIGHWAYS AND OTHER INTERSECTIONS. At the intersections of through highways and at intersections upon streets other than through highways where, because of heavy cross traffic or other traffic conditions, particular hazard exists, the Council shall determine whether vehicles shall stop or yield at one or more entrances to any such intersections and shall erect an appropriate sign at every such place when a stop or yield is required.

3-3-24 SCHOOL STOPS. At the following school crossing zones every driver of a vehicle approaching said zone shall bring the vehicle to a full stop at a point ten (10) feet from the approach side of the crosswalk marked by an authorized school stop sign and thereafter proceed in a careful and prudent manner until the vehicle shall have passed through such school crossing zone.

No provisions of this chapter for which signs are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official sign is not in regular position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular section does not state that signs are required, such section shall be effective even though no signs are erected or in place.

3-3-26 DESIGNATION OF CROSSWALKS AND TRAFFIC LANES. The Council is hereby authorized:

1. To designate and maintain by appropriate devices, marks or lines upon the surface of the roadway, crosswalks at intersections where due to traffic conditions there is particular danger to pedestrians crossing the street or roadway, and at such other places as traffic conditions require.

Whenever by this or any other chapter of this Code of Ordinances, any parking time limit is imposed or parking is prohibited on designated streets or portions of streets, it is the duty of the Council to erect appropriate signs giving notice thereof and no such regulations shall be effective unless signs are erected and in place at the time of any alleged offense. When signs are so erected giving notice thereof, no person shall disobey the restrictions stated on such signs.

3-3-31 PROHIBITED PARKING DURING SNOW EMERGENCY. The purpose of this section is to provide for a system whereby persons are notified

of snow emergencies. Without such an ordinance, cars remain parked on certain streets and effective plowing is curtailed. Consequently, parking places are hard to obtain and cars often park too far from the curb, creating a hazard to other motorists.

1. A snow emergency shall automatically go into effect when snow accumulation reaches two inches. At such time as two inches of snow accumulates on City streets, a snow emergency will go into effect and the parking restrictions set forth herein shall be in effect immediately and without further notice. The City may provide additional notice of the snow emergency as it deems appropriate and necessary.
2. In addition to the provision for automatic snow emergency set forth in subsection 1 above, whenever the Mayor determines, on the basis of falling snow, sleet, freezing rain, or on the basis of a credible weather forecast, that weather conditions will make it necessary that motor vehicle traffic be expedited and that parking on City streets be prohibited or restricted for snow plowing or other purposes, the Mayor may declare a snow emergency by notifying the City Clerk.
3. No person shall park, abandon, or leave unattended any vehicle on any public street during an automatic or declared snow emergency.
4. An automatic snow emergency shall take effect immediately when snow accumulation reaches two inches. A declared snow emergency shall take effect at a time set by the Mayor but not earlier than two (2) hour after it is declared. The Mayor shall declare a snow emergency by notifying the City Clerk, stating the beginning time and, if known, the ending time for the snow emergency. If the office of the Clerk is closed, the Mayor shall file such notice promptly when the office next is opened during normal business hours. The Mayor may cancel such declaration or change the beginning or ending time. Notice shall be given for such cancellations or changes in the same manner as the original snow emergency declaration. The City Clerk shall ensure that notice of declared snow emergencies is promulgated in a timely manner to the public by all appropriate means, as well as promulgate by the same means the cancellation of any snow emergencies.
5. Enforcement and Towing. Any person who violates the provisions of this section shall be subject to criminal prosecution and to civil enforcement.
6. Each 12-hour period that a vehicle is parked or allowed to remain on any street in violation of this section constitutes a separate and distinct offense. Any vehicles found to be parked where not permitted during a

snow emergency may be impounded in accordance with the provisions of the Grand Mound Code of Ordinances.

7. Appeal. A violation of this section may be appealed to the Mayor within thirty (30) days of the date of the violation and prior to a complaint being filed in District Court. In the event of a timely appeal, the Mayor shall conduct a summary review and then either determine that the case will be enforced in accordance with the provisions of this section the Grand Mound Code of Ordinances, or, in the alternative, order administratively that the case be dismissed.

(Ord. 265-14 – Dec. 14 Supp.)

3-3-32 ALL-NIGHT PARKING PROHIBITED. No person, except physicians or other persons on emergency calls, shall park a vehicle on any street marked to prohibit all-night parking and giving notice thereof, for a period of time longer than thirty (30) minutes between the hours of two o'clock (2:00) a.m. and five o'clock (5:00) a.m. of any day.

When actually receiving or delivering merchandise or cargo such vehicle shall be stopped or parked in a manner which will not interfere with other traffic, and receiving and delivery time shall not exceed thirty (30) minutes at any one time.

2. Noise. No such vehicle shall be left standing or parked upon any street, alley, public or private parking lot, or drive of any service station with the engine, auxiliary engine, air compressor, refrigerating equipment or other device in operation giving off audible sounds excepting only the drive of a service station when actually being serviced, and then in no event for more than thirty (30) minutes.

3. Livestock. No such vehicle containing livestock shall be parked on any street, alley or highway for a period of time of more than thirty (30) minutes.

80.01 DEFINITIONS. For use in this chapter the following terms are defined:

(Code of Iowa, Sec. 321.89[1])

1. “Abandoned vehicle” means any of the following:
 - A. A vehicle that has been left unattended on public property for more than twenty-four (24) hours and lacks current registration plates or two (2) or more wheels or other parts which renders the vehicle totally inoperable.
 - B. A vehicle that has remained illegally on public property for more than twenty-four (24) hours.
 - C. A vehicle that has been unlawfully parked or placed on private property without the consent of the owner or person in control of the property for more than twenty-four (24) hours.

 - E. Any vehicle parked on the highway determined by a police authority to create a hazard to other vehicle traffic.
 - F. A vehicle that has been impounded pursuant to Section 321J.4B of the Code of Iowa by order of the court and whose owner has not paid the impoundment fees after notification by the person or agency responsible for carrying out the impoundment order.
2. “Demolisher” means any city or public agency organized for the disposal of solid waste, or any person whose business it is to convert a vehicle to junk, processed scrap or scrap metal, or otherwise to wreck, or dismantle vehicles.

3. "Police authority" means the Iowa state patrol or any law enforcement agency of a county or city.

80.02 AUTHORITY TO TAKE POSSESSION OF ABANDONED VEHICLES. A police authority, upon the authority's own initiative or upon the request of any other authority having the duties of control of highways or traffic, shall take into custody an abandoned vehicle on public property and may take into custody any abandoned vehicle on private property. The police authority may employ its own personnel, equipment, and facilities or hire a private entity, equipment, and facilities for the purpose of removing, preserving, storing, or disposing of abandoned vehicles. A property owner or other person in control of private property may employ a private entity which is a garage keeper (any operator of a parking place or establishment, motor vehicle storage facility, or establishment for the servicing, repair, or maintenance of motor vehicles) to dispose of an abandoned vehicle, and the private entity may take into custody the abandoned vehicle without a police authority's initiative. If a police authority employs a private entity to dispose of abandoned vehicles, the police authority shall provide the private entity with the names and addresses of the registered owners, all lienholders of record, and any other known claimant to the vehicle or the personal property found in the vehicle.

(Ord. 250-09 – Dec. 09 Supp.)

(Code of Iowa, Sec. 321.89[2])

80.03 NOTICE BY MAIL. The police authority or private entity that takes into custody an abandoned vehicle shall notify, within twenty (20) days, by certified mail, the last known registered owner of the vehicle, all lienholders of record, and any other known claimant to the vehicle or to personal property found in the vehicle, addressed to the parties' last known addresses of record, that the abandoned vehicle has been taken into custody. Notice shall be deemed given when mailed. The notice shall describe the year, make, model and vehicle identification number of the vehicle, describe the personal property found in the vehicle, set forth the location of the facility where the vehicle is being held, and inform the persons receiving the notice of their right to reclaim the vehicle and personal property within ten (10) days after the effective date of the notice upon payment of all towing, preservation, and storage charges resulting from placing the vehicle in custody and upon payment of the costs of the notice. The notice shall also state that the failure of the owner, lienholders or claimants to exercise their right to reclaim the vehicle or personal property within the time provided shall be deemed a waiver by the owner, lienholders and claimants of all right, title, claim and interest in the vehicle or personal property and that failure to reclaim the vehicle or personal property is deemed consent to the sale of the vehicle at a public auction or disposal of the vehicle to a demolisher and to

disposal of the personal property by sale or destruction. If the abandoned vehicle was taken into custody by a private entity without a police authority's initiative, the notice shall state that the private entity may claim a garage keeper's lien as described in Section 321.90 of the Code of Iowa, and may proceed to sell or dispose of the vehicle. If the abandoned vehicle was taken into custody by a police authority or by a private entity hired by a police authority, the notice shall state that any person claiming rightful possession of the vehicle or personal property who disputes the planned disposition of the vehicle or property by the police authority or private entity or of the assessment of fees and charges provided by this section may ask for an evidentiary hearing before the police authority to contest those matters. If the persons receiving notice do not ask for a hearing or exercise their right to reclaim the vehicle or personal property within the ten-day reclaiming period, the owner, lienholders or claimants shall no longer have any right, title, claim, or interest in or to the vehicle or the personal property. A court in any case in law or equity shall not recognize any right, title, claim, or interest of the owner, lienholders or claimants after the expiration of the ten-day reclaiming period.

(Ord. 250-09 – Dec. 09 Supp.)

(Code of Iowa, Sec. 321.89[3a])

80.04 NOTIFICATION IN NEWSPAPER. If the identity of the last registered owner cannot be determined, or if the registration contains no address for the owner, or if it is impossible to determine with reasonable certainty the identity and addresses of all lienholders, notice by one publication in one newspaper of general circulation in the area where the vehicle was abandoned shall be sufficient to meet all requirements of notice under Section 80.03. The published notice may contain multiple listings of abandoned vehicles and personal property but shall be published within the same time requirements and contain the same information as prescribed for mailed notice in Section 80.03.

(Code of Iowa, Sec. 321.89[3b])

80.05 EXTENSION OF TIME. The owner, lienholders or claimants may, by written request delivered to the police authority or private entity prior to the expiration of the ten (10) day reclaiming period, obtain an additional five (5) days within which the motor vehicle or personal property may be reclaimed.

(Code of Iowa, Sec. 321.89[3c])

80.06 FEES FOR IMPOUNDMENT. The owner, lienholder or claimant shall pay three dollars (\$3.00) if claimed within five (5) days of impounding, plus one dollar (\$1.00) for each additional day within the reclaiming period plus towing charges if stored by the City, or towing and storage fees, if stored in a public garage, whereupon said vehicle shall be released. The amount of towing

charges, and the rate of storage charges by privately owned garages, shall be established by such facility.

(Code of Iowa, Sec. 321.89[3a])

80.07 DISPOSAL OF ABANDONED VEHICLES. If an abandoned vehicle has not been reclaimed as provided herein, the police authority or private entity shall make a determination as to whether or not the motor vehicle should be sold for use upon the highways, and shall dispose of the motor vehicle in accordance with State law.

(Code of Iowa, Sec. 321.89[4])

80.08 DISPOSAL OF TOTALLY INOPERABLE VEHICLES. The City or any person upon whose property or in whose possession is found any abandoned motor vehicle, or any person being the owner of a motor vehicle whose title certificate is faulty, lost or destroyed, may dispose of such motor vehicle to a demolisher for junk, without a title and without notification procedures, if such motor vehicle lacks an engine or two (2) or more wheels or other structural part which renders the vehicle totally inoperable. The police authority shall give the applicant a certificate of authority. The applicant shall then apply to the County Treasurer for a junking certificate and shall surrender the certificate of authority in lieu of the certificate of title.

(Code of Iowa, Sec. 321.90[2e])

80.09 PROCEEDS FROM SALES. Proceeds from the sale of any abandoned vehicle shall be applied to the expense of auction, cost of towing, preserving, storing and notification required, in accordance with State law. Any balance shall be held for the owner of the motor vehicle or entitled lienholder for ninety (90) days, and then shall be deposited in the State Road Use Tax Fund. Where the sale of any vehicle fails to realize the amount necessary to meet costs the police authority shall apply for reimbursement from the Department of Transportation.

(Code of Iowa, Sec. 321.89[4])

80.10 DUTIES OF DEMOLISHER. Any demolisher who purchases or otherwise acquires an abandoned motor vehicle for junk shall junk, scrap, wreck, dismantle or otherwise demolish such motor vehicle. A demolisher shall not junk, scrap, wreck, dismantle or demolish a vehicle until the demolisher has obtained the junking certificate issued for the vehicle.

(Code of Iowa, Sec. 372.13[4])

The use of any other pipe material for the service line shall first be approved by the Superintendent. Pipe must be laid sufficiently waving, and to such depth, as to prevent rupture from settlement or freezing.

90.11 RESPONSIBILITY FOR WATER SERVICE PIPE. All costs and expenses incident to the installation and connection of the water service pipe from the curb valve to the building served shall be borne by the owner. Following the initial installation, the owner shall be responsible for maintenance from the main to the building served, including the curb valve. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation or maintenance of said water service pipe.

90.12 FAILURE TO MAINTAIN. When any portion of the water service pipe which is the responsibility of the property owner becomes defective or creates a nuisance and the owner fails to correct such nuisance the City may do so and assess the costs thereof to the property.

Where one service pipe supplies more than one customer within the building, there shall be separate valves for each such customer so that service may be shut off for one without interfering with service to the others.

90.15 INSPECTION AND APPROVAL. All water service pipes and their connections to the water system must be inspected and approved in writing by the Superintendent before they are covered, and the Superintendent shall keep a record of such approvals. If the Superintendent refuses to approve the work, the plumber or property owner must proceed immediately to correct the work. Every person who uses or intends to use the municipal water system shall permit the Superintendent to enter the premises to inspect or make necessary alterations or repairs at all reasonable hours and on proof of authority.

90.16 COMPLETION BY THE CITY. Should any excavation be left open or only partly refilled for twenty-four (24) hours after the water service pipe is installed and connected with the water system, or should the work be improperly done, the City shall have the right to finish or correct the work, and the Council shall assess the costs to the property owner or the plumber. If the plumber is assessed, the plumber must pay the costs before receiving another permit. If the property owner is assessed, such assessment may be collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12[3a & h])

90.17 SHUTTING OFF WATER SUPPLY. The Superintendent may shut off the supply of water to any customer because of any violation of the regulations contained in these Water Service System chapters that is not being contested in good faith. The supply shall not be turned on again until all violations have been corrected and the Superintendent has ordered the water to be turned on.

90.18 OPERATION OF CURB VALVE AND HYDRANTS. It is unlawful for any person except the Superintendent to turn water on at the curb valve, and no person, unless specifically authorized by the City, shall open or attempt to draw water from any fire hydrant for any purpose whatsoever.

(Code of Iowa, Sec. 384.84)

92.07 LIEN EXEMPTION. The lien for nonpayment shall not apply to commercial rental property or residential rental property where water service is separately metered and the rates or charges for the water service are paid directly to the City by the tenant, if the landlord gives written notice to the City that the property is commercial rental property or residential rental property, and that the tenant is liable for the rates or charges. The City may require a deposit not exceeding the usual cost of ninety (90) days of water service be paid to the City. The landlord's written notice shall contain the name of the tenant responsible for charges, the address of the rental property and the date occupancy begins. A change in tenant shall require a new written notice to be given to the City within ten (10) business days of the change in tenant. 93.03 Construction by City

93.04 Construction by Owner

93.05 Water Line Extension Permit

93.06 Rights of City

93.01 PURPOSE. The purpose of this chapter is to provide a means and method for the extension of water mains to serve property not served by an existing water line so as to preserve and improve the peace, safety, health, welfare, comfort and convenience of the residents of the City.

93.02 DEFINITIONS. For use in this chapter, the following terms are defined:

2. “Estimated cost” means a cost estimate prepared by a registered professional engineer or qualified contractor experienced in the installation of water main pipe and appurtenances. All such estimates are subject to the approval of the Council and in the event of any disagreement as to the amount of estimated costs, the materials to be used or installation methods, the determination of the Council shall be final and conclusive.

93.03 CONSTRUCTION BY CITY. An owner of land abutting or adjoining a property or a public street where no water main has been installed may make application to the Council for the installation of a water main along such property and in the street for the purpose of serving the property in accordance with the following:

1. Application and Deposit. A written request for such installation, and a sum equal to the total estimated cost of the installation from the point where the water main is presently installed and terminates to the point where the most distance boundary of the owner’s lot abuts an adjoining property or the public street, shall be submitted to the Council.
2. Construction. Upon receipt of the deposit, the City shall construct the water main for the purpose of serving the property of the applicant (builder), as soon as such construction can reasonably be accomplished.

3. Additional Costs. In the event the actual cost to the City of installation of the water main is in excess of the estimated cost, the builder agrees to reimburse the City for the actual additional cost within thirty (30) days after the presentation of a bill for such additional cost.
4. Lien Authorized. In the event of the failure of the builder to reimburse the City, as specified in subsection 3 above, the total of the additional cost shall be certified to the County Treasurer as a special assessment lien against the builder's real estate. In the written request for installation of the water main, the landowner shall waive all objections to jurisdiction and rights to notice and consent to the entry of such a special assessment lien against the real estate.
5. Maximum Cost. The additional cost of installation, as contemplated in subsections 3 and 4 above, shall not exceed one hundred ten percent (110%) of the estimated cost.
6. Connecting Property. The expense of connecting the property of the builder to the water main shall be borne by the builder, in addition to the cost of constructing said water main, but such connection shall be under the supervision of the City.

93.04 CONSTRUCTION BY OWNER. In the event an owner of land abutting or adjoining a property or public street in which no water main has been previously installed desires to construct said water main at the owner's own expense, the owner may do so, after making proper application to the City and receiving a permit to install such a water main, in accordance with the following:

1. City Supervision. The installation of such a water main by a landowner at the owner's expense shall be under the strict supervision of the City and shall, in all ways, conform to the requirements and specifications of the City.
2. Surety Bond. When making application to the City for a permit to install such a water main, the applicant shall post with the City a surety bond, in an amount to be set by the Council and made a matter of record in the minutes of the Council, which shall be in an amount equal to but not less than one hundred ten percent (110%) of the total estimated cost of the installation for the full distance from the termination point of the presently existing water main to the point where the farthest boundary of the applicant's land abuts the property or street, and the bond shall guarantee the installation of the water main in as short a time as reasonably possible and shall further indemnify the City for the cost of completing the project in the event the applicant fails to complete the

project within a reasonable time, and shall further indemnify the City for all damages to public property incurred in the installation, and shall further hold the City harmless for any and all other damages arising from the installation of the water main.

3. Ownership of Water Main. After the water main has been installed, it shall become the property of the City.

4. Cost Approval. For purposes of determining connection charges under Section 93.05 below, costs incurred by the owner shall be certified by the City and only so much of said costs as are approved by the City shall be used in determining connection charges as provided hereafter.

93.05 WATER LINE EXTENSION PERMIT. Water line extensions sought under this chapter shall require a permit therefor issued to builder or owner by the Clerk upon submission of the appropriate application and deposit and a \$150.00 permit fee covering City personnel expenses for issuance of the permit and for supervision of connection to water main.

93.06 RIGHTS OF CITY. All decisions in connection with the manner of installation of any extension and maintenance thereof shall remain in the exclusive control of the City and such extension shall be the property of the City and no other person shall have any right, title or interest therein.

BUILDING SEWERS AND CONNECTIONS

96.01 Permit
96.02 Plumber Required
96.03 Excavations
96.04 Connection Requirements
96.05 Interceptors Required

96.06 Sewer Tap
96.07 Inspection Required
96.08 Property Owner's Responsibility
96.09 Abatement of Violations

96.01 PERMIT. No unauthorized person shall uncover, make any connection with or opening into, use, alter or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the City. The application for the permit shall set forth the location and description of the property to be connected with the sewer system and the purpose for which the sewer is to be used, and shall be supplemented by any plans, specifications, or other information considered pertinent. The permit shall require the owner to complete construction and connection of the building sewer to the public sewer within sixty (60) days after the issuance of the permit, except that when a property owner makes sufficient showing that due to conditions beyond the owner's control or peculiar hardship, such time period is inequitable or unfair, an extension of time within which to comply with the provisions herein may be granted. Any sewer connection permit may be revoked at any time for a violation of these chapters.

96.02 PLUMBER REQUIRED. All installations of building sewers and connections to the public sewer shall be made by a plumber approved by the City. The Superintendent shall have the power to suspend the approval of any plumber for violation of any of the provisions of these Sanitary Sewer chapters; a suspension, unless revoked, shall continue until the next regular meeting of the Council. The Superintendent shall notify the plumber immediately by personal written notice of the suspension, the reasons for the suspension, and the time and place of the Council meeting at which the plumber will be granted a hearing. At this Council meeting the Superintendent shall make a written report to the Council stating the reasons for the suspension, and the Council, after fair hearing, shall affirm or revoke the suspension or take any further action that is necessary and proper.

96.03 EXCAVATIONS. All excavations required for the installation of a building sewer shall be open trench work unless otherwise approved by the City. Pipe laying and backfill shall be performed in accordance with A.S.T.M. Specification C-12, except that no backfill shall be placed until the work has

been inspected. The excavations shall be made in accordance with the provisions of Chapter 135 where applicable.

96.04 CONNECTION REQUIREMENTS. Any connection with a public sanitary sewer must be made under the direct supervision of the Superintendent and in accordance with the following:

1. **Old Building Sewers.** Old building sewers may be used in connection with new buildings only when they are found, on examination and test conducted by the owner and observed by the Superintendent, to meet all requirements of this chapter.
2. **Separate Building Sewers.** A separate and independent building sewer shall be provided for every occupied building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway. In such cases the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.
3. **Installation.** The connection of the building sewer into the public sewer shall conform to the requirements of Division 4, Plumbing Rules and Regulations, of the State Building Code, applicable rules and regulations of the City, or the procedures set forth in A.S.T.M. Specification C-12. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation.
4. **Water Lines.** When possible, building sewers should be laid at least ten (10) feet horizontally from a water service. The horizontal separation may be less, provided the water service line is located at one side and at least twelve (12) inches above the top of the building sewer.
5. **Size.** Building sewers shall be sized for the peak expected sewage flow from the building with a minimum building sewer size of four (4) inches.
6. **Alignment and Grade.** All building sewers shall be laid to a straight line to meet the following:
 - A. Recommended grade at one-fourth ($\frac{1}{4}$) inch per foot.
 - B. Minimum grade of one-eighth ($\frac{1}{8}$) inch per foot.
 - C. Minimum velocity of 2.00 feet per second with the sewer half full.

- D. Any deviation in alignment or grade shall be made only with the written approval of the Superintendent and shall be made only with approved fittings.
7. Depth. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. The depth of cover above the sewer shall be sufficient to afford protection from frost.
8. Sewage Lifts. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the building sewer.
9. Pipe Specifications. Building sewer pipe shall be free from flaws, splits, or breaks. Materials shall be as specified in Division 4 of the State Building Code except that the building sewer pipe, from the property line to the public sewer, shall comply with the current edition of one of the following:
- A. Clay sewer pipe - A.S.T.M. C-700 (extra strength).
 - B. Extra heavy cast iron soil pipe - A.S.T.M. A-74.
 - C. Ductile iron water pipe - A.W.W.A. C-151.
 - D. P.V.C. - SDR26 - A.S.T.M. D-3034.
10. Bearing Walls. No building sewer shall be laid parallel to, or within three (3) feet of any bearing wall, which might thereby be weakened.
11. Jointing. Fittings, type of joint, and jointing material shall be compatible with the type of pipe used, subject to the approval of the Superintendent. Solvent-welded joints are not permitted.
12. Unstable Soil. No sewer connection shall be laid so that it is exposed when crossing any watercourse. Where an old watercourse must of necessity be crossed or where there is any danger of undermining or settlement, cast iron soil pipe or vitrified clay sewer pipe thoroughly encased in concrete shall be required for such crossings. Such encasement shall extend at least six (6) inches on all sides of the pipe. The cast iron pipe or encased clay pipe shall rest on firm, solid material at either end.
13. Preparation of Basement or Crawl Space. No connection for any residence, business or other structure with any sanitary sewer shall be made unless the basement floor is poured, or in the case of a building with a slab or crawl space, unless the ground floor is installed with the

area adjacent to the foundation of such building cleared of debris and backfilled. The backfill shall be well compacted and graded so that the drainage is away from the foundation. Prior to the time the basement floor is poured, or the first floor is installed in buildings without basements, the sewer shall be plugged and the plug shall be sealed by the Superintendent. Any accumulation of water in any excavation or basement during construction and prior to connection to the sanitary sewer shall be removed by means other than draining into the sanitary sewer.

96.05 INTERCEPTORS REQUIRED. Grease, oil, sludge and sand interceptors shall be provided by gas and service stations, convenience stores, car washes, garages, and other facilities when, in the opinion of the Superintendent, they are necessary for the proper handling of such wastes that contain grease in excessive amounts or any flammable waste, sand or other harmful ingredients. Such interceptors shall not be required for private living quarters or dwelling units. When required, such interceptors shall be installed in accordance with the following:

1. Design and Location. All interceptors shall be of a type and capacity as provided by the Iowa Public Health Bulletin and Division 4 of the State Building Code, to be approved by the Superintendent, and shall be located so as to be readily and easily accessible for cleaning and inspection.
2. Construction Standards. The interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers that shall be gastight and watertight.
3. Maintenance. All such interceptors shall be maintained by the owner at the owner's expense and shall be kept in continuously efficient operations at all times.

96.06 SEWER TAP. Connection of the building sewer into the public sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If no properly located "Y" branch is available, a saddle "Y" shall be installed at the location specified by the Superintendent. The public sewer shall be tapped with a tapping machine and a saddle appropriate to the type of public sewer shall be glued or attached with a gasket and stainless steel clamps to the sewer. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent

and in accordance with the Superintendent's direction if such connection is approved.

96.07 INSPECTION REQUIRED. All connections with the sanitary sewer system before being covered shall be inspected and approved, in writing, by the Superintendent. As soon as all pipe work from the public sewer to inside the building has been completed, and before any backfilling is done, the Superintendent shall be notified and the Superintendent shall inspect and test the work as to workmanship and material; no sewer pipe laid under ground shall be covered or trenches filled until after the sewer has been so inspected and approved. If the Superintendent refuses to approve the work, the plumber or owner must proceed immediately to correct the work.

96.08 PROPERTY OWNER'S RESPONSIBILITY. All costs and expenses incident to the installation, connection and maintenance of the building sewer shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

96.09 ABATEMENT OF VIOLATIONS. Construction or maintenance of building sewer lines whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner's expense, within thirty (30) days after date of official notice from the Council of such violation. If not made within such time the Council shall, in addition to the other penalties herein provided, have the right to finish and correct the work and assess the cost thereof to the property owner. Such assessment shall be collected with and in the same manner as general property taxes.

Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two (2) milligrams per liter as CN in the wastes as discharged to the public sewer.

3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
4. Solid or Viscous Substances. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.
5. Excessive B.O.D., Solids or Flow. Any waters or wastes having (a) a five (5) day biochemical oxygen demand greater than three hundred (300) parts per million by weight, or (b) containing more than three hundred fifty (350) parts per million by weight of suspended solids, or (c) having an average daily flow greater than two percent (2%) of the average sewage flow of the City, shall be subject to the review of the Superintendent. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner's expense, such preliminary treatment as may be necessary to (a) reduce the biochemical oxygen demand to three hundred (300) parts per million by weight, or (b) reduce the suspended solids to three hundred fifty (350) parts per million by weight, or (c) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent and no construction of such facilities shall be commenced until said approvals are obtained in writing.

97.04 RESTRICTED DISCHARGES. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than one hundred fifty (150) degrees F (65 degrees C).
2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100) milligrams per liter or six hundred (600) milligrams per liter of dispersed or other soluble matter.
3. Viscous Substances. Water or wastes containing substances which may solidify or become viscous at temperatures between thirty-two (32) and one hundred fifty (150) degrees F (0 and 65 degrees C).
4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half ($\frac{1}{2}$) inch in any dimension.
5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution whether neutralized or not.
6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of state, federal, or other public agencies of jurisdiction for such discharge to the receiving waters.
8. Radioactive Wastes. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.
9. Excess Alkalinity. Any waters or wastes having a pH in excess of 9.5.
10. Unusual Wastes. Materials which exert or cause:
 - A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).

- B. Excessive discoloration (such as, but not limited to dye wastes and vegetable tanning solutions).
 - C. Unusual B.O.D., chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 - D. Unusual volume of flow or concentration of wastes constituting “slugs” as defined herein.
11. Noxious or Malodorous Gases. Any noxious or malodorous gas or other substance which either singly or by interaction with other wastes is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.
12. Damaging Substances. Any waters, wastes, materials or substances which react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration or create any other condition deleterious to structures and treatment processes.
13. Untreatable Wastes. Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

97.05 RESTRICTED DISCHARGES - POWERS. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.04 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. Rejection. Reject the wastes by requiring disconnection from the public sewage system;
2. Pretreatment. Require pretreatment to an acceptable condition for discharge to the public sewers;
3. Controls Imposed. Require control over the quantities and rates of discharge; and/or

4. Special Charges. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

97.06 SPECIAL FACILITIES. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

97.07 CONTROL MANHOLES. When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

97.08 TESTING OF WASTES. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premises is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from twenty-four (24) hour composites of all outfalls whereas pH's are determined from periodic grab samples).

(Code of Iowa, Sec. 364.12[3f])

98.02 WHEN REQUIRED. When a public sanitary sewer is not available under the provisions of Section 95.05, every building wherein persons reside, congregate or are employed shall be provided with an approved on-site wastewater treatment and disposal system complying with the provisions of this chapter.

(IAC, 567-69.1[3])

98.03 COMPLIANCE WITH REGULATIONS. The type, capacity, location and layout of a private on-site wastewater treatment and disposal system shall comply with the specifications and requirements set forth by the Iowa Administrative Code 567, Chapter 69, and with such additional requirements as are prescribed by the regulations of the County Board of Health.

SEWER USER CHARGE

99.01 Sewer User Charge Required
99.02 Rate
99.03 Special Rates
99.04 Private Water Systems
99.05 Payment of Bills

99.06 Lien for Nonpayment
99.07 Special Agreements Permitted
99.08 Notification of Rates
99.09 Conflicting Agreements

99.01 SEWER USER CHARGE REQUIRED. Every customer shall pay to the City sewer service fees as hereinafter provided. The user charge system shall generate adequate annual revenues to pay the costs of (i) annual operation and maintenance, including replacement, and (ii) costs associated with the sewer bond debt retirement for financing the wastewater treatment works which the City may, by resolution, designate to be paid by the user charge system. The revenues collected from the sewer user charge shall be deposited in two separate non-lapsing funds as follows: (a) a fund designated as the “Wastewater Treatment Works Operation and Maintenance Fund” for the specific purpose of defraying operation and maintenance costs excluding replacement of the wastewater treatment works; and (b) a fund designated as the “Wastewater Treatment Works Replacement Fund” for the specific purpose of ensuring replacement needs over the useful life of the wastewater treatment works. Where sewer revenue bonds of the City are outstanding, the provision of the resolution authorizing the issuance of the bonds shall, in the event of conflict, prevail on the provisions of this section.

(Code of Iowa, Sec. 384.84)

99.02 RATE. Each customer shall pay a flat charge or “debt retirement charge” of twelve dollars (\$12.00) per month. In addition, each customer shall pay a “sewer user charge” at the rate of twenty-four cents (\$.24)/100 gallons of water and water service attributable to the customer for the property served.

1. Future Rates. On July 1, 2006, sewer user charge per gallon shall be increased by 2.0% over the rates established in Section 99.02, which rate shall be in effect until June 30, 2007. On each July 1, thereafter, said sewer user charge shall be increased by 2.0% over the rates in effect during the preceding year.

(Ord. 259-12 – Dec. 12 Supp.)

99.03 SPECIAL RATES. Any user which discharges any toxic pollutants which cause an increase in the cost of managing the effluent or the sludge from the wastewater treatment works, or any user which discharges any substance

which singly or by interaction with other substances causes identifiable increases in the cost of operation, maintenance, or replacement of the wastewater treatment works shall pay for such increased costs. The charge to each such user shall be as determined by the Council. Where, in the judgment of the Superintendent and the Council, special conditions exist to the extent that the application of the sewer user charge provided in Section 99.02 would be inequitable or unfair to either the City or the customer, a special rate shall be proposed by the Superintendent and submitted to the Council for approval by resolution.

(Code of Iowa, Sec. 384.84)

99.04 PRIVATE WATER SYSTEMS. Customers whose premises are served by a private water system shall pay sewer charges based upon the water used as determined by the City either by an estimate agreed to by the customer or by metering the water system at the customer's expense. Any negotiated, or agreed upon sales or charges shall be subject to approval of the Council.

(Code of Iowa, Sec. 384.84)

99.05 PAYMENT OF BILLS. All sewer service charges are due and payable under the same terms and conditions provided for payment of a combined service account as contained in Section 92.03 of this Code of Ordinances. Sewer service may be discontinued in accordance with the provisions contained in Section 92.04 if the combined service account becomes delinquent, and the provisions contained in Section 92.08 relating to lien notices shall also apply in the event of a delinquent account.

99.06 LIEN FOR NONPAYMENT. The owner of the premises served and any lessee or tenant thereof shall be jointly and severally liable for sewer service charges to the premises. Sewer service charges remaining unpaid and delinquent shall constitute a lien upon the premises served and shall be certified by the Clerk to the County Treasurer for collection in the same manner as property taxes.

(Code of Iowa, Sec. 384.84)

99.07 SPECIAL AGREEMENTS PERMITTED. No statement in these chapters shall be construed as preventing a special agreement, arrangement or contract between the Council, and any industrial concern whereby an industrial waste of unusual strength or character may be accepted subject to special conditions, rate and cost as established by the Council.

99.08 NOTIFICATION OF RATES. The City will notify each user at least annually in conjunction with a regular bill of the rate and that portion of the user charges which are attributable to operation and maintenance, including replacement of the wastewater treatment works. Any project-related revenues (e.g., sale of sludge or effluent) will be used to offset the cost of the wastewater system operation and maintenance.

99.09 CONFLICTING AGREEMENTS. This chapter takes precedence over any terms of conditions of agreements or contracts between the City and user which are inconsistent with the requirements of the Federal Clean Water Act and corresponding regulations (40 CFR 35.2140 dated February 17, 1984).

CHAPTER 100

SEWER EXTENSIONS

100.01 Purpose

100.02 Definition

100.03 Construction by City

100.04 Construction by Owner

100.05 Others Required to Connect

100.06 Building Sewers Installed

100.07 Sewer Extension Permit

100.01 PURPOSE. The purpose of this chapter is to provide a means and method for the extension of sewers to serve property not served by an existing sewer line so as to preserve and improve the peace, safety, health, welfare, comfort and convenience of the residents of the City.

100.02 DEFINITION. For the purpose of this chapter, “builder” means the owner of land who causes a sanitary sewer to be installed under the provisions of this chapter. Such term includes the heirs, successors or assigns of such owner.

100.03 CONSTRUCTION BY CITY. An owner of land abutting or adjoining a public street where no sanitary sewer has been installed may make application to the Council for the installation of a sanitary sewer in said street for the purpose of serving the property in accordance with the following:

1. Application and Deposit. A written request for such installation, and a sum equal to the cost as estimated by the City of construction from the point where the sanitary sewer is presently installed and terminates to the point where the most distant boundary of the owner’s lot abuts the said public street, shall be submitted to the Council.
2. Construction. Upon receipt of the deposit, the City shall construct the sanitary sewer for the purpose of serving the property of the applicant (builder), as soon as such construction can reasonably be accomplished.
3. Additional Costs. In the event the actual cost to the City of installation of the sanitary sewer is in excess of the estimated cost, the builder agrees to reimburse the City for the actual additional cost within thirty (30) days after the presentation of a bill for such additional cost.
4. Lien Authorized. In the event of the failure of the builder to reimburse the City, as specified in subsection 3 above, the total of the additional cost shall be certified to the County Treasurer as a special assessment lien against the builder’s real estate. In the written request for installation of the sanitary sewer, the landowner shall waive all

objections to jurisdiction and rights to notice and consent to the entry of such a special assessment lien against the real estate.

5. Connecting Property. The expense of connecting the property of the builder to the sanitary sewer laid in the public street shall be borne by the builder, in addition to the cost of constructing said sewer, but such connection shall be under the supervision of the City.

100.04 CONSTRUCTION BY OWNER. In the event an owner of land abutting or adjoining a public street in which no sewer has been previously installed desires to construct said sewer at the owner's own expense, the owner may do so, after making proper application to the City and receiving a permit to install such a sewer, in accordance with the following:

1. City Supervision. The installation of such a sewer by a landowner at the owner's expense shall be under the strict supervision of the City and shall, in all ways, conform to the requirements and specifications of the City.

2. Surety Bond. When making application to the City for a permit to install such a sewer, the applicant shall post with the City a surety bond, in an amount to be set by the Council and made a matter of record in the minutes of the Council, which shall be in an amount equal to but not less than one hundred ten percent (110%) of the total estimated cost of the installation for the full distance from the termination point of the presently existing sewer to the point where the farthest boundary of the applicant's land abuts the public street, and the bond shall guarantee the installation of the sewer in as short a time as reasonably possible and shall further indemnify the City for the cost of completing the project in the event the applicant fails to complete the project within a reasonable time, and shall further indemnify the City for all damages to the public street incurred in the installation, and shall further hold the City harmless for any and all other damages arising from the installation of the sanitary sewer.

3. Ownership of Sewer Line. After the sewer has been installed, it shall become the property of the City.

100.05 OTHERS REQUIRED TO CONNECT. Following the installation of a sanitary sewer under the provisions of this chapter, owners of land abutting or adjoining a public street in which such sewer has been installed, being persons other than the builder, shall be obliged to connect any sewage generating facilities into said sanitary sewer, as required by Chapter 95.

100.06 BUILDING SEWERS INSTALLED. Each sanitary sewer constructed in a public street or right-of-way, whether constructed by the City or by a private party, shall include a stub to each abutting or adjoining lot line of the street or right-of-way on which the sewer is installed. Each party responsible for installing such sewer shall provide the City with an accurate map showing the location of each of such stubs within thirty (30) days of the completion of the installation.

100.07 SEWER EXTENSION PERMIT. Sewer extensions sought under this chapter shall require a permit therefor issued to owner by the Clerk upon submission of the appropriate application and deposit, and a one hundred fifty dollar (\$150.00) permit fee covering City personnel expense for issuance of the permit and for supervision of connection to sewer main.

STORM WATER DRAINAGE UTILITY

103.01 Purpose

103.02 Fee

103.03 Payment of Bills

103.04 Lien for Nonpayment

103.05 Use of Funds

103.01 PURPOSE. The purpose of this chapter is to establish the Storm Water Drainage Utility and authorize a fee for the use of, and discharge to, the public storm water drainage system.

103.02 FEE. Each residential, commercial, and industrial premise shall pay a monthly fee of four dollars and fifty cents (\$4.50) for storm water drainage system service provided by the City. *(Ord. 293-19 – Jun. 19 Supp.)*

103.03 PAYMENT OF BILLS. The storm water drainage utility fee shall be due and payable under the same terms and conditions provided for payment of a combined service account as contained in Section 92.03 of this Code of Ordinances. All City services may be discontinued in accordance with the provisions contained in Section 92.04 if the combined service account becomes delinquent, and the provisions contained in Section 92.07 relating to lien notices shall also apply in the event of a delinquent account.

(Code of Iowa, Sec. 384.84)

103.04 LIEN FOR NONPAYMENT. The owner of the premises served and any lessee or tenant thereof are jointly and severally liable for charges for the operation and maintenance of the storm water drainage system. Fees remaining unpaid and delinquent shall constitute a lien upon the premises served and shall be certified by the Clerk to the County Treasurer for collection in the same manner as property taxes.

(Code of Iowa, Sec. 384.84)

103.05 USE OF FUNDS. All revenues and moneys derived from the collection of the storm water drainage utility fee shall be paid to and held by the City separate and apart from all other funds of the City, and all of said sums and all other funds and moneys incident to the operation of said system, as may be delivered to the City shall be deposited in a separate fund designated the

“Drainage System Improvements Fund,” and the Council shall administer said fund in a manner provided by the Code of Iowa and all other laws pertaining thereto.

All trimming shall be done at the expense of the Grantee.

114.19 LINE EXTENSIONS. It shall be the obligation of the Grantee to serve all residents of the City except to the extent that density of homes, adverse terrain or other factors render providing service impracticable, technically infeasible or economically noncompensatory. For purposes of determining compliance with the provisions of this section, and to provide for a reasonable and nondiscriminatory policy governing extensions of cable service within the

City, Grantee shall extend service to new subscribers at the normal installation charge and monthly rate for customers of that classification where there is an average of fifteen (15) residences within 1,320 cable-bearing strand feet of new cable construction. All such organizations are required to submit in writing to the Clerk the name and purpose of the cause for which such activities are sought, names and addresses of the officers and directors of the organization,

the period during which such activities are to be carried on, and whether any commissions, fees or wages are to be charged by the solicitor and the amount thereof. If the Clerk finds that the organization is a bona fide charity or nonprofit organization the Clerk shall issue, free of charge, a license containing the above information to the applicant. In the event the Clerk denies the exemption, the authorized representatives of the organization may appeal the decision to the Council, as provided in Section 122.15 of this chapter.

151.01 PURPOSE. The purpose of this chapter is to promote and protect the public health, safety and general welfare by providing for the regulations of the planting, maintenance and removal of trees, shrubs and other plants within the City.

151.02 DEFINITIONS. For use in this chapter, the following terms are defined.

1. "Parking" means that part of the street, avenue or highway in the City not covered by the sidewalk and lying between the lot line and the curb line; or, on unpaved streets, that part of the street, avenue or highway lying between the lot line and that portion of the street usually traveled by vehicle traffic.
2. "Street tree" or "tree" means a tree in the public place except where otherwise indicated. Trees located within parkings are street trees.

151.03 OFFICIAL STREET TREE SPECIES. The following list constitutes the official street tree species for the City. This does not mean it is complete or will remain unchanged; however, it provides a broad selection of trees that show promise as tough, attractive additions to the City landscape. No species other than these may be planted as street trees without written permission of the Community Tree Consultant.

SMALL TREES	MEDIUM TREES	LARGE TREES
Crabapple Flowering Crab Hornbeam Hophornbeam Amur Corktree Amur Maple Red Bud Serviceberry Japanese Tree Lilac Japanese Pagoda Tree Hawthorn	Little Leaf Linden Redmond Linden Thornless Honey Locust	Ginkgo White Oak Red Oak Black Oak Swamp White Oak Basswood Sycamore Hackberry Green Ash (seedless) Maples (hard) White Ash
Where: Small = mature height less than 25 feet (as a rule, must be trained to tree form) Medium = mature height 25 to 40 feet Large = mature height greater than 40 feet		

No species other than those included in this list may be planted without written permission of the Community Tree Consultant. All trees planted within City parkings shall be a minimum of one and one-quarter (1¼) inches in caliper or larger at the base and a minimum of four (4) feet tall or larger in height. Trees must meet the American Standard for Nursery Stock.

151.04 PROHIBITED TREES. The following list includes trees that are not allowed to be planted on City parkings:

- | | | |
|--------------------|---------------|-----------------|
| Boxelder | Siberian Elm | Chinese Elm |
| Cottonwood | White Poplar | Lombardy Poplar |
| Boileana Poplar | Willows | Tree of Heaven |
| American Elm | Silver Maple | Catalpa |
| Black Locust | Russian Olive | Weeping Birch |
| Crimson King Maple | Mulberry | Pin Oak |
| White Birch | Paper Birch | Mountain Ash |
| Hybrid Poplar | | |

For safety considerations, no conifers or evergreens should be planted between the sidewalk and the curb of any City street.

151.05 SPACING. The spacing of street trees shall be in accordance with the three (3) species size classes listed in Section 151.03 of this chapter, and no trees may be planted closer together than the following: small trees, 30 feet; medium trees, 40 feet; large trees, 50 feet – except in special plantings approved by the City Tree Board.

151.06 DISTANCE FROM CURB AND SIDEWALK. The distance trees may be planted from curbs or curb lines and sidewalks shall be in accordance with the three (3) species size classes listed in Section 151.03 of this chapter, and no trees may be planted closer to any curb or sidewalk than the following: small trees, 2 feet; medium trees, 3 feet; and large trees, 4 feet. No trees shall be planted where the width of the parking is less than three (3) feet.

151.07 DISTANCE FROM STREET CORNERS. No street tree shall be planted closer than twenty (20) feet from any street corner, measured from the point of nearest intersecting curbs or curb lines.

151.08 UTILITIES. No street trees other than those species listed as small trees in Section 151.03 may be planted under or within ten (10) lateral feet of any overhead electrical wire, or over or within five (5) lateral feet of any underground water line, sewer, transmission line or other utility.

151.09 PUBLIC TREE CARE. The City and Iowa Electric Light & Power Company shall have the right to plant, prune, maintain and remove trees, plants and shrubs within the lines of all streets, alleys, avenues, lanes, squares and public grounds, as may be necessary to insure public safety or to preserve or enhance the symmetry and beauty of such public grounds. The City Tree Board may remove or cause or order to be removed any tree or shrub or part thereof which is in an unsafe condition or which by reason of its nature is injurious to sewers, gas lines, water lines or other public improvements, or is affected with any injurious fungus, insect or other pest, or which obstructs view of traffic. This section does not prohibit the planting of street trees by adjacent property owners providing that the selection and location of said trees is in accordance with Sections 151.03 through 151.08 of this chapter.

151.10 TREE TOPPING. It is unlawful as a normal practice for any person or City department to top any street tree, park tree or other tree on public property. Topping is defined as the severe cutting back of limbs to stubs larger than three inches in diameter within the tree's crown to such a degree so as to remove the normal canopy and disfigure the tree. Trees severely damaged by storms or other causes, or certain trees under utility wires or other obstructions where other pruning practices are impractical, may be exempted from this section at the determination of the City Tree Board. The tree trimming and tree topping conducted by the employees of the Iowa Electric Light & Power Company shall be exempt from this section.

151.11 PRUNING; CORNER CLEARANCE. The owner or agent of the abutting property shall keep the trees on or overhanging the street trimmed so that all branches will be at least fifteen (15) feet above the surface of the street and eight (8) feet above the sidewalks. If the abutting property owner fails to trim the trees as required in this chapter, the City may serve notice on the abutting property owner requiring that such action be taken within sixty (60) days. If such action is not taken within that time, the City may perform the required action and assess the costs against the abutting property for collection in the same manner as a property tax. No person shall plant, remove, cut above

the ground or disturb any tree on any street, park or other public place without first filing an application and procuring a permit from the Community Tree Consultant. The person receiving the permit shall abide by the standards set forth in this chapter.

151.12 REMOVAL OF DEAD OR DISEASED TREES. The City has the right to cause the removal of any dead or diseased trees on private property within the City when such trees constitute a hazard to life and property, or harbor insects or diseases which constitute a potential threat to other trees within the City. The City Tree Board shall notify in writing the owners of such trees. Removal shall be done by said owners at their own expense within sixty (60) days after the date of service of notice. In the event of failure of owners to comply with such provisions, the City shall have the authority to remove such trees and charge the cost of removal on the owner's property tax notice.

151.13 PROCEDURE UPON ORDER TO PRESERVE OR REMOVE. When the City finds it necessary to order the trimming, preservation or removal of trees or plants upon private property, as authorized in Section 151.12, it shall serve a written order to correct the dangerous condition upon the owner, operator, occupant or other person responsible for its existence.

1. Method of Service. The order required herein shall be served in one of the following ways:
 - A. By making person delivery of the order to the person responsible.
 - B. By leaving the order with some person of suitable age and discretion upon the premises.
 - C. By affixing a copy of the order to the door of the entrance of the premises in violation.
 - D. By mailing a copy of the order to last known address of the owner of the premises, by registered mail.
 - E. By publishing a copy of the order in a local paper once a week for three successive weeks.
2. Time for Compliance. The order required herein shall set forth a time limit for compliance, dependent upon the hazard and danger created by the violation. In cases of extreme danger to persons or public property, the City shall have the authority to require compliance immediately upon service of the order, or remove the hazard at City cost without right of appeal.

3. **Appeal From Order.** A person to whom an order hereunder is directed shall have the right, within 24 hours of the service of each order, to appeal to the Council, who shall review such order within 30 days and file its decision thereon. Unless the order is revoked or modified, it shall remain in full force and be obeyed by the person to whom directed. No person to whom an order is directed shall fail to comply with such order within three days after an appeal shall have been determined.

4. **Failure to Comply.** When a person to whom an order is directed shall fail to comply within the specified time, the City shall remedy the condition or contract with others for such purpose and charge the cost thereof to the person to whom the order is directed. The person remedying a condition under a contract made hereunder shall be authorized to enter premises for that purpose.

5. **Special Assessment.** If the cost of remedying a condition is not paid within 30 days after receipt of a statement therefor from the City, such cost shall be levied against the property upon which said hazard exists as a special assessment. The levying of such assessment shall not affect the liability of the person to whom the order is directed to fine and imprisonment as herein provided. Such special assessment shall be certified by the City to the County Treasurer and shall thereupon become and be a lien upon such property, shall be included in the next tax bill rendered to the owner or owners thereof unless paid before, and shall be collected in the same manner as other taxes against such property.

151.14 REMOVAL OF STUMPS. All stumps of street and park trees shall be removed below the surface of the ground so that the top of the stump does not project above the surface of the ground.

151.15 ABUSE OR MUTILATION OF TREES. No person shall:

1. Damage, cut, carve, transplant or injure the bark of street or park trees.
2. Remove any healthy street or park tree or plant without the approval of the City Tree Board.
3. Attach any rope, wire or other contrivance to any street or park tree or plant.
4. Dig in or otherwise disturb, injure or impair the root systems of street or park trees.
5. Cause or permit any wire charged with electricity to come in contact with street or park trees or plant or allow any gaseous, liquid or

solid substance which is harmful to such trees or plants to come in contact with them.

151.16 ARBORIST’S BOND. It is unlawful for any person to engage in the business of trimming, pruning, spraying or otherwise treating trees or shrubs within the City without first filing evidence of possession of liability insurance in the minimum amounts of \$300,000 for bodily injury or death and \$100,000 property damage indemnifying the City or any person injured or damaged resulting from the pursuit of such endeavor as herein described.

151.17 VIOLATION. Each day that a violation by any person of the provisions of this chapter is committed or permitted to continue shall constitute a separate offense, except when under appeal.

151.18 EMERGENCIES. The City shall, by resolution, declare a state of emergency in the event of storm, disaster, tree disease or other cause and order the removal of trees, fallen limbs or debris at City cost and expense.

160.11 Flood Plain Development Permit Required	

160.01 STATUTORY AUTHORITY, FINDINGS OF FACT AND PURPOSE.

1. Statutory Authority. The Legislature of the State of Iowa has in Chapter 364, *Code of Iowa*, as amended, delegated the power to cities to exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges and property of the City or of its residents, and to preserve and improve the peace, safety, health, welfare, comfort and convenience of its residents.
2. Findings of Fact.
 - A. The flood hazard areas of the City of Grand Mound are subject to periodic inundation which can result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base all of which adversely affect the public health, safety and general welfare of the community.
 - B. These flood losses, hazards, and related adverse effects are caused by: (i) The occupancy of flood hazard areas by uses vulnerable to flood damages which create hazardous conditions as a result of being inadequately elevated or otherwise protected from flooding and (ii) the cumulative effect of obstructions on the floodplain causing increases in flood heights and velocities.
3. Statement of Purpose. It is the purpose of this chapter to protect and preserve the rights, privileges and property of the City of Grand Mound and its residents and to preserve and improve the peace, safety, health, welfare, and comfort and convenience of its residents by

minimizing those flood losses described in Section 160.01(2)(A) of this chapter with provisions designed to:

- A. Restrict or prohibit uses which are dangerous to health, safety or property in times of flood or which cause excessive increases in flood heights or velocities.
- B. Require that uses vulnerable to floods, including public facilities which serve such uses, be protected against flood damage at the time of initial construction or substantial improvement.
- C. Protect individuals from buying lands which may not be suited for intended purposes because of flood hazard.
- D. Assure that eligibility is maintained for property owners in the community to purchase flood insurance through the National Flood Insurance Program.

160.02 DEFINITIONS. Unless specifically defined below, words or phrases used in this chapter shall be interpreted so as to give them the meaning they have in common usage and to give this chapter its most reasonable application.

1. “Base flood” means the flood having one (1) percent chance of being equaled or exceeded in any given year. (See 100-year flood.)
2. “Basement” means any enclosed area of a building which has its floor or lowest level below ground level (subgrade) on all sides. Also see “lowest floor.”
3. “Development” means any manmade change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.
4. “Existing construction” means any structure for which the “start of construction” commenced before the effective date of the of the first floodplain management regulations adopted by the community. May also be referred to as “existing structure.”
5. “Existing factory-built home park or subdivision” means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) was completed before the effective date of these flood plain management regulations.

6. “Expansion of existing factory-built home park or subdivision” means the preparation of additional sites by the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).
7. “Factory-built home” means any structure designed for residential use which is wholly or in substantial part made, fabricated, formed or assembled in manufacturing facilities for installation or assembly and installation on a building site. For the purpose of this chapter, factory-built homes include mobile homes, manufactured homes and modular homes and also includes “recreational vehicles” which are placed on a site for greater than 180 consecutive days and not fully licensed for and ready for highway use.
8. “Factory-built home park” means a parcel or contiguous parcels of land divided into two or more factory-built home lots for sale or lease.
9. “Flood” means a general and temporary condition of partial or complete inundation of normally dry land areas resulting from the overflow of streams or rivers or from the unusual and rapid runoff of surface waters from any source.
10. “Flood elevation” means the elevation floodwaters would reach at a particular site during the occurrence of a specific flood. For instance, the 100-year flood elevation is the elevation of floodwaters related to the occurrence of the 100-year flood.
11. “Flood Insurance Rate Map (FIRM)” means the official map prepared as part of (but published separately from) the Flood Insurance Study which delineates both the flood hazard areas and the risk premium zones applicable to the community.
12. “Flood plain” means any land area susceptible to being inundated by water as a result of a flood.
13. “Flood plain management” means an overall program of corrective and preventive measures for reducing flood damages and promoting the wise use of flood plains, including but not limited to emergency preparedness plans, flood control works, floodproofing and flood plain management regulations.
14. “Floodproofing” means any combination of structural and nonstructural additions, changes, or adjustments to structures, including utility and sanitary facilities which will reduce or eliminate flood damage to such structures.

15. “Floodway” means the channel of a river or stream and those portions of the flood plains adjoining the channel, which are reasonably required to carry and discharge flood waters or flood flows so that confinement of flood flows to the floodway area will not cumulatively increase the water surface elevation of the base flood by more than one (1) foot.
16. “Floodway fringe” means those portions of the flood plain, other than the floodway, which can be filled, leveed, or otherwise obstructed without causing substantially higher flood levels or flow velocities.
17. “Historic structure” means any structure that is:
- A. Listed individually in the National Register of Historic Places, maintained by the Department of Interior, or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing in the National Register;
 - B. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;
 - C. Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or,
 - D. Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified by either (i) an approved state program as determined by the Secretary of the Interior or (ii) directly by the Secretary of the Interior in states without approved programs.
18. “Lowest floor” means the floor of the lowest enclosed area in a building including a basement except when all the following criteria are met:
- A. The enclosed area is designed to flood to equalize hydrostatic pressure during floods with walls or openings that satisfy the provisions of Section 160.09(4)(A); and
 - B. The enclosed area is unfinished (not carpeted, dry-walled, etc.) and used solely for low damage potential uses such as building access, parking or storage; and
 - C. Machinery and service facilities (e.g., hot water heater, furnace, electrical service) contained in the enclosed area are located at least one (1) foot above the 100-year flood level; and

D. The enclosed area is not a “basement” as defined in this section.

In cases where the lowest enclosed area satisfies criteria A, B, C and D above, the lowest floor is the floor of the next highest enclosed area that does not satisfy the criteria above.

19. “Minor projects” means small development activities (except for filling, grading and excavating) valued at less than \$500.

20. “New construction” (new buildings, factory-built home parks) means those structures or development for which the start of construction commenced on or after the effective date of the Flood Insurance Rate Map.

21. “New factory-built home park or subdivision” means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of these flood plain management regulations.

22. “100-Year Flood” means a flood, the magnitude of which has a one percent (1%) chance of being equaled or exceeded in any given year or which, on the average, will be equaled or exceeded at least once every one hundred (100) years.

23. “Recreational vehicle” means a vehicle which is:

A. Built on a single chassis;

B. Four hundred (400) square feet or less when measured at the largest horizontal projection;

C. Designed to be self-propelled or permanently towable by a light duty truck; and

D. Designed primarily not for use as a permanent dwelling but as a temporary living quarters for recreational, camping, travel, or seasonal use.

24. “Routine maintenance existing building and facilities” means repairs necessary to keep a structure in a safe and habitable condition that do not trigger a building permit, provided they are not associated with a general improvement of the structure or repair of a damaged structure. Such repairs include:

- A. Normal maintenance of structures such as re-roofing, replacing roofing tiles and replacing siding;
 - B. Exterior and interior painting, papering, tiling, carpeting, cabinets, counter tops and similar finish work;
 - C. Basement sealing;
 - D. Repairing or replacing damaged or broken window panes; and
 - E. Repairing plumbing systems, electrical systems, heating or air conditioning systems and repairing wells or septic systems.
25. “Special flood hazard area” means the land within a community subject to the “100-year flood.” This land is identified as Zone A on the Flood Insurance Rate Map.
26. “Start of construction” includes substantial improvement, and means the date the development permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement or permanent construction of a structure on a site, such as pouring of a slab or footings, the installation of pile, the construction of columns, or any work beyond the stage of excavation; or the placement of a factory-built home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of the building, whether or not that alteration affects the external dimensions of the building.
27. “Structure” means anything constructed or erected on the ground or attached to the ground, including, but not limited to, buildings, factories, sheds, cabins, factory-built homes, storage tanks and other similar uses.
28. “Substantial damage” means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damage condition would equal or exceed fifty (50) percent of the market value of the structure before the damage occurred.

29. “Substantial improvement” means any improvement to a structure which satisfies either of the following criteria:

A. Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds fifty (50) percent of the market value of the structure either (i) before the “start of construction” of the improvement, or (ii) if the structure has been “substantially damaged” and is being restored, before the damage occurred. The term does not, however, include any project for improvement of a structure to comply with existing State or local health, sanitary, or safety code specifications which are solely necessary to assure safe conditions for the existing use. The term also does not include any alteration of an “historic structure,” provided the alteration will not preclude the structure’s designation as an “historic structure.”

B. Any addition which increases the original floor area of a building by twenty-five (25) percent or more. All additions constructed after July 18, 2011, the effective date of the Flood Insurance Rate Map, shall be added to any proposed addition in determining whether the total increase in original floor space would exceed twenty-five percent.

30. “Variance” means a grant of relief by a community from the terms of the flood plain management regulations.

31. “Violation” means the failure of a structure or other development to be fully compliant with this chapter.

160.03 LANDS TO WHICH CHAPTER APPLIES. The provisions of this chapter shall apply to all areas having special flood hazards within the jurisdiction of the City. For the purpose of this chapter, the special flood hazard areas are those areas designated as Zone A on the Flood Insurance Rate Map for Clinton County and Incorporated Areas, City of Grand Mound, Panel 19045C0425D, dated July 18, 2011, as amended, which is hereby adopted and made a part of this chapter.

160.04 RULES FOR INTERPRETATION OF FLOOD HAZARD BOUNDARIES. The boundaries of the Special Flood Hazard areas shall be determined by scaling distances on the official Flood Insurance Rate Map. When an interpretation is needed as to the exact location of a boundary, the City Clerk shall make the necessary interpretation. The City Council shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the Clerk in the enforcement or administration of this chapter.

160.05 COMPLIANCE. No structure or land shall hereafter be used and no structure shall be located, extended, converted or structurally altered without full compliance with the terms of this chapter and other applicable regulations which apply to uses within the jurisdiction of this chapter.

160.06 ABROGATION AND GREATER RESTRICTIONS. It is not intended by this chapter to repeal, abrogate or impair any existing easements, covenants, or deed restrictions. However, where this chapter imposes greater restrictions, the provision of this chapter shall prevail. Any ordinances inconsistent with this chapter are hereby repealed to the extent of the inconsistency only.

160.07 INTERPRETATION. In their interpretation and application, the provisions of this chapter shall be held to be minimum requirements and shall be liberally construed in favor of the Council and shall not be deemed a limitation or repeal of any other powers granted by State statutes.

160.08 WARNING AND DISCLAIMER OF LIABILITY. The standards required by this chapter are considered reasonable for regulatory purposes. This chapter does not imply that areas outside the designated special flood hazard areas will be free from flooding or flood damages. This chapter shall not create liability on the part of the City or any officer or employee thereof for any flood damages that result from reliance on this chapter or any administrative decision lawfully made thereunder.

160.09 FLOOD PLAIN MANAGEMENT STANDARDS. All uses must be consistent with the need to minimize flood damage and shall meet the following applicable performance standards. Where floodway data and 100-year flood data have not been provided on the Flood Insurance Rate Map, the Department of Natural Resources shall be contacted to compute such data. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determination.

1. All development within the special flood hazard areas shall:
 - A. Be consistent with the need to minimize flood damage.
 - B. Use construction methods and practices that will minimize flood damage.
 - C. Use construction materials and utility equipment that are resistant to flood damage.
 - D. Obtain all other necessary permits from Federal, State and local governmental agencies including approval when required from the Iowa Department of Natural Resources.

2. Residential buildings. All new or substantially improved residential structures shall have the lowest floor, including basement, elevated a minimum of one (1) foot above the 100-year flood level. Construction shall be upon compacted fill which shall, at all points, be no lower than one (1) foot above the 100-year flood level and extend at such elevation at least 18 feet beyond the limits of any structure erected thereon. Alternate methods of elevating (such as piers) may be allowed, subject to favorable consideration by the City Council, where existing topography, street grades, or other factors preclude elevating by fill. In such cases, the methods used must be adequate to support the structure as well as withstand the various forces and hazards associated with flooding. All new residential structures shall be provided with a means of access which will be passable by wheeled vehicles during the 100-year flood.

3. Nonresidential buildings. All new or substantially improved nonresidential buildings shall have the lowest floor (including basement) elevated a minimum of one (1) foot above the 100-year flood level, or together with attendant utility and sanitary systems, be flood-proofed to such a level. When floodproofing is utilized, a professional engineer registered in the State shall certify that the floodproofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the 100-year flood; and that the structure, below the 100-year flood level, is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to North American Vertical Datum) to which any structures are flood-proofed shall be maintained by the Administrator.

4. All new and substantially improved structures:

A. Fully enclosed areas below the “lowest floor” (not including basements) that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or meet or exceed the following minimum criteria:

(1) A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.

(2) The bottom of all openings shall be no higher than one foot above grade.

- (3) Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

Such areas shall be used solely for parking of vehicles, building access and low damage potential storage.

B. New and substantially improved structures must be designed (or modified) and adequately anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.

C. New and substantially improved structures must be constructed with electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

5. Factory-built Homes.

A. All factory-built homes, including those placed in existing factory-built home parks or subdivisions, shall be elevated on a permanent foundation such that the lowest floor of the structure is a minimum of one (1) foot above the 100-year flood level.

B. All factory-built homes, including those placed in existing factory-built home parks or subdivisions, shall be anchored to resist flotation, collapse or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors.

6. Utility and Sanitary Systems.

A. On-site waste disposal and water supply systems shall be located or designed to avoid impairment to the system or contamination from the system during flooding.

B. All new and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system as well as the discharge of effluent into flood waters. Wastewater treatment facilities (other than on-site systems) shall be provided with a level of flood protection equal to or greater than one (1) foot above the 100-year flood elevation.

C. New or replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into

the system. Water supply treatment facilities other than on-site systems shall be provided with a level of protection equal to or greater than one (1) foot above the 100-year flood elevation.

D. Utilities such as gas or electrical systems shall be located and constructed to minimize or eliminate flood damage to the system and the risk associated with such flood damaged or impaired systems.

7. Storage of materials and equipment that are flammable, explosive or injurious to human, animal or plant life is prohibited unless elevated a minimum of one (1) foot above the 100-year flood level. Other material and equipment must either be similarly elevated or (i) not be subject to major flood damage and be anchored to prevent movement due to flood waters or (ii) be readily removable from the area within the time available after flood warning.

8. Flood control structural works such as levees, flood-walls, etc. shall provide, at a minimum, protection from a 100-year flood with a minimum of 3 feet of design freeboard and shall provide for adequate interior drainage. In addition, structural flood control works shall be approved by the Department of Natural Resources.

9. Watercourse alterations or relocations must be designed to maintain the flood carrying capacity within the altered or relocated portion. In addition, such alterations or relocations must be approved by the Department of Natural Resources.

10. Subdivisions (including factory-built home parks and subdivisions) shall be consistent with the need to minimize flood damages and shall have adequate drainage provided to reduce exposure to flood damage. Development associated with subdivision proposals (including the installation of public utilities) shall meet the applicable performance standards of this chapter. Subdivision proposals intended for residential use shall provide all lots with a means of access which will be passable by wheeled vehicles during the 100-year flood. Proposals for subdivisions greater than five (5) acres or fifty (50) lots (whichever is less) shall include 100-year flood elevation data for those areas located within the Special Flood Hazard Area.

11. Accessory Structures.

A. Detached garages, sheds, and similar structures accessory to a residential use are exempt from the 100-year flood elevation requirements where the following criteria are satisfied:

(1) The structure shall not be used for human habitation.

(2) The structure shall be designed to have low flood damage potential.

(3) The structure shall be constructed and placed on the building site so as to offer minimum resistance to the flow of floodwaters.

(4) The structure shall be firmly anchored to prevent flotation which may result in damage to other structures.

(5) The structure's service facilities such as electrical and heating equipment shall be elevated or flood-proofed to at least one (1) foot above the 100-year flood level.

B. Exemption from the 100-year flood elevation requirements for such a structure may result in increased premium rates for flood insurance coverage of the structure and its contents.

12. Recreational Vehicles.

A. Recreational vehicles are exempt from the requirements of Section 160.09(5) of this chapter regarding anchoring and elevation of factory-built homes when the following criteria are satisfied.

(1) The recreational vehicle shall be located on the site for less than 180 consecutive days, and,

(2) The recreational vehicle must be fully licensed and ready for highway use. A recreational vehicle is ready for highway use if it is on its wheels or jacking system and is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.

B. Recreational vehicles that are located on the site for more than 180 consecutive days and are not ready for highway use must satisfy requirements of Section 160.09(5) of this chapter regarding anchoring and elevation of factory-built homes.

13. Pipeline river and stream crossings shall be buried in the streambed and banks, or otherwise sufficiently protected to prevent rupture due to channel degradation and meandering.

160.10 ADMINISTRATION. The City Clerk shall implement and administer the provisions of this chapter and will herein be referred to as the

Administrator. Duties and responsibilities of the Administrator shall include, but not necessarily be limited to, the following:

1. Review all flood plain development permit applications to assure that the provisions of this chapter will be satisfied.
2. Review all flood plain development permit applications to assure that all necessary permits have been obtained from Federal, State and local governmental agencies including approval when required from the Department of Natural Resources for flood plain construction.
3. Record and maintain a record of the elevation (in relation to North American Vertical Datum) of the lowest floor (including basement) of all new or substantially improved structures in the special flood hazard area.
4. Record and maintain a record of the elevation (in relation to North American Vertical Datum) to which all new or substantially improved structures have been flood-proofed.
5. Notify adjacent communities and/or counties and the Department of Natural Resources prior to any proposed alteration or relocation of a watercourse and submit evidence of such notifications to the Federal Emergency Management Agency.
6. Keep a record of all permits, appeals and such other transactions and correspondence pertaining to the administration of this chapter.

160.11 FLOOD PLAIN DEVELOPMENT PERMIT REQUIRED. A Flood Plain Development Permit issued by the Administrator shall be secured prior to any flood plain development (any manmade change to improved and unimproved real estate, including but not limited to buildings or other structures, mining, filling, grading, paving, excavation or drilling operations) including the placement of factory-built homes.

160.12 APPLICATION FOR PERMIT. Application for a Flood Plain Development Permit shall be made on forms supplied by the Administrator and shall include the following information:

1. **Work To Be Done.** Description of the work to be covered by the permit for which application is to be made.
2. **Location.** Description of the land on which the proposed work is to be done (i.e., lot, block, tract, street address or similar description) that will readily identify and locate the work to be done.
3. **Use or Occupancy.** Indication of the use or occupancy for which the proposed work is intended.

4. Flood Elevation. Elevation of the 100-year flood.
5. Floor Elevation. Elevation (in relation to North American Vertical Datum) of the lowest floor (including basement) of buildings or of the level to which a building is to be flood-proofed.
6. Cost of Improvement. For buildings being improved or rebuilt, the estimated cost of improvements and market value of the building prior to the improvements.
7. Other. Such other information as the Administrator deems reasonably necessary (e.g., drawings or a site plan) for the purpose of this chapter.

160.13 ACTION ON APPLICATION. The Administrator shall, within a reasonable time, make a determination as to whether the proposed flood plain development meets the applicable standards of this chapter and shall approve or disapprove the application. For disapprovals, the applicant shall be informed, in writing, of the specific reasons therefor. The Administrator shall not issue permits for variances except as directed by the Council.

160.14 CONSTRUCTION AND USE TO BE AS PROVIDED IN APPLICATION AND PLANS. Flood Plain Development Permits, issued on the basis of approved plans and applications, authorize only the use, arrangement, and construction set forth in such approved plans and applications and no other use, arrangement or construction. Any use, arrangement, or construction at variance with that authorized shall be deemed a violation of this chapter. The applicant shall be required to submit certification by a professional engineer or land surveyor, as appropriate, registered in the State, that the finished fill, building floor elevations, floodproofing, or other flood protection measures were accomplished in compliance with the provisions of this chapter, prior to the use or occupancy of any structure.

160.15 VARIANCES. The Council may authorize upon request in specific cases such variances from the terms of this chapter that will not be contrary to the public interest, where owing to special conditions, a literal enforcement of the provisions of this chapter will result in unnecessary hardship. Variances granted must meet the following applicable standards:

1. Cause. Variances shall only be granted upon (i) a showing of good and sufficient cause, (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant, and (iii) a determination that the granting of the variance will not result in increased flood heights, additional threats to public safety, extraordinary public

expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local codes or ordinances.

2. Required To Afford Relief. Variances shall only be granted upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

3. Notice To Applicant. In cases where the variance involves a lower level of flood protection for buildings than what is ordinarily required by this chapter, the applicant shall be notified in writing over the signature of the Administrator that (i) the issuance of a variance will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage and (ii) such construction increases risks to life and property.

160.16 FACTORS UPON WHICH THE DECISION TO GRANT VARIANCES SHALL BE BASED. In passing upon applications for variances, the Council shall consider all relevant factors specified in other sections of this chapter and:

1. The danger to life and property due to increased flood heights or velocities caused by encroachments.
2. The danger that materials may be swept on to other land or downstream to the injury of others.
3. The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination and unsanitary conditions.
4. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.
5. The importance of the services provided by the proposed facility to the City.
6. The requirements of the facility for a flood plain location.
7. The availability of alternative locations not subject to flooding for the proposed use.
8. The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.
9. The relationship of the proposed use to the comprehensive plan and flood plain management program for the area.
10. The safety of access to the property in times of flood for ordinary and emergency vehicles.

11. The expected heights, velocity, duration, rate of rise and sediment transport of the flood water expected at the site.
12. The cost of providing governmental services during and after flood conditions, including maintenance and repair of public utilities (sewer, gas, electrical and water systems), facilities, streets and bridges.
13. Such other factors which are relevant to the purpose of this chapter.

160.17 CONDITIONS ATTACHED TO VARIANCES. Upon consideration of the factors listed in Section 160.16, the Council may attach such conditions to the granting of variances as it deems necessary to further the purpose of this chapter. Such conditions may include, but not necessarily be limited to:

1. Modification of waste disposal and water supply facilities.
2. Limitation of periods of use and operation.
3. Imposition of operational controls, sureties, and deed restrictions.
4. Requirements for construction of channel modifications, dikes, levees, and other protective measures, provided such are approved by the Department of Natural Resources and are deemed the only practical alternative to achieving the purposes of this chapter.
5. Floodproofing measures.

160.18 NONCONFORMING USES.

1. A structure or the use of a structure or premises which was lawful before the passage or amendment of this chapter, but which is not in conformity with the provisions of this chapter, may be continued subject to the following conditions:
 - A. If such use is discontinued for six (6) consecutive months, any future use of the building premises shall conform to this chapter.
 - B. Uses or adjuncts thereof that are or become nuisances shall not be entitled to continue as nonconforming uses.
2. If any nonconforming use or structure is destroyed by any means, including flood, it shall not be reconstructed if the cost is more than fifty (50) percent of the market value of the structure before the damage occurred, unless it is reconstructed in conformity with the provisions of this chapter. This limitation does not include the cost of any alteration to comply with existing State or local health, sanitary, building or safety

codes or regulations or the cost of any alteration of a structure listed on the National Register of Historic Places, provided that the alteration shall not preclude its continued designation.

160.19 AMENDMENTS. The regulations and standards set forth in this chapter may from time to time be amended, supplemented, changed, or repealed. No amendment, supplement, change, or modification shall be undertaken without prior approval from the Department of Natural Resources.

165.02 DEFINITIONS. For use in this chapter, the following terms or words are defined.

1. “Alley” means a public right-of-way, other than a street, fifteen (15) feet or less in width, affording secondary means of access to abutting property.
2. “Block” means an area of land within a subdivision that is entirely bounded by streets or highways, and/or the exterior boundaries of the subdivision.
3. “Building line” means a line on a plat between which line and public right-of-way no buildings or structures may be erected.

5. “Easement” means a grant of the right to use a strip of land for specific purposes by the general public, a corporation or certain persons.
6. “Lot” means a portion of a subdivision or other parcel of land intended for the purpose, whether immediate or future, of transfer of ownership or for building development.
7. “Major street” means a street of considerable continuity connecting various sections of the City designated as a major street on the official major street plan of the City.

8. “Minor street” means a street which is used primarily for access to the abutting properties.
9. “Performance bond” means a surety bond or cash deposit made out to the City, in an amount equal to the full cost of the improvements which are required by this chapter, said cost estimated by the City, and said surety bond or cash deposit being legally sufficient to secure to the City that the said improvements will be constructed in accordance with this chapter.
10. “Plat” means a map, drawing or chart on which the subdivider’s plan of the subdivision of land is presented and which the subdivider submits for approval and intends, in final form, to record.
11. “Subdivider” means the person undertaking the subdivision or resubdivision of a tract or parcel of land.
12. “Subdivision” means the division of land into three (3) or more lots or other division of land for the purpose, whether immediate or future, of transfer of ownership or building development. The term, when appropriate to the context, relates to the process of subdividing or to the land subdivided, or the resubdivision of land heretofore divided or platted into lots or other divisions of land, or, if a new street is involved, any division of land.

165.03 PLATTING REQUIRED. Every owner of any tract or parcel of land who has subdivided or shall hereafter subdivide or plat the same for the purpose of laying out an addition, subdivision, building lot or lots, acreage or suburban lots within the City or, pursuant to Section 354.9 of the Code of Iowa, within two (2) miles from the corporate limits shall cause plats of such area to be made in the form, and containing the information, as hereinafter set forth before selling any lots therein contained or placing the plat on record.

165.04 PROCEDURE. In obtaining final approval of a proposed subdivision by the Council, the subdivider shall submit a preliminary plat in accordance with the requirements hereinafter set forth and install improvements or provide a performance bond.

165.05 REQUIREMENTS OF PRELIMINARY PLAT. The subdivider shall first prepare and file with the Clerk seven (7) copies of a preliminary plat of adequate scale and size showing the following:

1. Title, scale, north point and date.
2. Subdivision boundary lines, showing dimensions, bearings, angles, and references to section, townships and range lines or corners.

3. Present and proposed streets, alleys and sidewalks, with their right-of-way, in or adjoining the subdivision, including dedicated widths, approximate gradients, types and widths of surfaces, curbs, and planting strips, and location of street lights.
4. Proposed layout of lots, showing numbers, dimensions, radii, chords and the square foot areas of lots that are not rectangular.
5. Building setback or front yard lines.
6. Parcels of land proposed to be dedicated or reserved for schools, parks, playgrounds, or other public, semi-public or community purposes.
7. Present and proposed easements, showing locations, widths, purposes and limitations.
8. Present and proposed utility systems, including sanitary and storm sewers, other drainage facilities, water lines, gas mains, electric utilities, and other facilities, with the size, capacity, invert elevation and location of each.
9. Proposed name of the subdivision which shall not duplicate or resemble existing subdivision names in the County.
10. Names and addresses of the owner, subdivider, builder, and engineer, surveyor or architect who prepared the preliminary plat, and the engineer, surveyor or architect who will prepare the final plat.
11. A general summary description of any protective covenants or private restrictions to be incorporated in the final plat.
12. Contours at vertical intervals of not more than two (2) feet if the general slope of the site is less than ten percent (10%) and at vertical intervals of not more than five (5) feet if the general slope is ten percent (10%) or greater, unless the Council waives this requirement.

165.06 REFERRAL OF PRELIMINARY PLAT. The Clerk shall forthwith refer six (6) copies of the preliminary plat to the Council.

165.07 ACTION BY THE COUNCIL. The Council shall carefully examine the preliminary plat as to its compliance with the laws and regulations of the City, the existing street system and good engineering practices. The Council shall, as soon as possible, but not more than sixty (60) days after receipt of the preliminary plat, negotiate with the subdivider on changes deemed advisable and the kind and extent of improvements to be made by the subdivider, and pass upon the preliminary plat as originally submitted or modified. If the Council does not act within sixty (60) days, the preliminary plat shall be deemed to be approved; provided, however, the subdivider may agree to an extension of the

time for a period not to exceed an additional sixty (60) days. The Council shall then set forth its recommendations in writing, whether of approval, modification or disapproval.

1. In the event that substantial changes or modifications are made by the Council or in the event the Council disapproves of the preliminary plat, the Council shall give its reasons therefor and may request and cause the revised preliminary plat to be resubmitted in the same manner as the original plat.
2. If approved, the Council shall express its approval as “conditional approval” and state the conditions of such approval, if any.
3. The action of the Council shall be noted on two (2) copies of the preliminary plat, referenced and attached to any conditions determined. One copy shall be returned to the subdivider and the other copy retained by the Clerk.
4. The “conditional approval” by the Council shall not constitute final acceptance of the addition or subdivision by the City but an authorization to proceed with preparation of the final plat.

165.08 FINAL PLAT. The final plat shall conform substantially to the preliminary plat as approved, and, if desired by the subdivider, it may constitute only that portion of the approved preliminary plat which the subdivider proposes to record and develop at the time, provided, however, that such portion conforms to all requirements of these regulations.

165.09 REFERRAL OF FINAL PLAT. The subdivider shall, within twelve (12) months of the “conditional approval” of the preliminary plat by the Council, prepare and file seven (7) copies of the final plat and other required documents with the Clerk as hereinafter set forth, and upon failure to do so within the time specified, the “conditional approval” of the preliminary plat shall be null and void unless an extension of time is applied for and granted by the Council. Upon receipt of the final plat and other required documents, the Clerk shall transmit six (6) copies of the final plat to the members of the Council for their recommendations and approval.

165.10 REQUIREMENTS OF THE FINAL PLAT. The final plat shall be clearly and legibly drawn to a scale of not more than one hundred (100) feet to one inch with India ink on a reproducible tracing linen. It shall show:

1. The title under which the subdivision is to be recorded.
2. The linear dimensions in feet and decimals of a foot of the subdivision boundary, lot lines, streets and alleys. These should be exact

and complete to include all distances, radii, arc, chords, points of tangency and central angles.

3. Street names and clear designations of public alleys. Streets that are continuations of present streets should bear the same name. If new names are needed, they should be distinctive. Street names may be required to conform to the City plan.
4. Location, type, materials, and size of all monuments and markers including all U.S., County or other official benchmarks.
5. The plat should be signed and acknowledged by the subdivision land owner and his or her spouse.
6. A sealed certification of the accuracy of the plat by the professional engineer or land surveyor who drew the final plat.

165.11 FINAL PLAT ATTACHMENTS. The final plat shall have the following attached to it:

1. A correct description of the subdivision land.
2. A statement by the proprietors and their spouses, if any, that the plat is prepared with their free consent and in accordance with their desire, signed and acknowledged before an officer authorized to take the acknowledgments of deeds. The statement by the proprietors may also include a dedication to the public of all lands within the plat that are designated for streets, alleys, parks, open areas, school property or other public use, if the dedication is approved by the Council.
3. An opinion by an attorney-at-law who has examined the abstract of title of the land being platted. The opinion shall state the names of the proprietors and holders of mortgages, liens or other encumbrances on the land being platted and shall note the encumbrances, along with any bonds securing the encumbrances. Utility easements shall not be construed to be encumbrances for the purpose of this section.
4. A certificate of the County Treasurer that the land is free from certified taxes and certified special assessments or that the land is free from certified taxes and that the certified special assessments are secured by bond in compliance with Section 354.12 of the Code of Iowa.
5. A certificate of dedication of streets and other public property.
6. A statement of restrictions of all types that run with the land and become covenants in the deeds of lots.
7. Resolution and certificate for approval by the Council and for signatures of the Mayor and Clerk.

8. Profiles, typical cross sections, and specifications of street improvements and utility systems, to show the location, size and grade. These should be shown on a fifty (50) foot horizontal scale and a five (5) foot vertical scale with west or south at the left.

9. A certificate by the Council or delegated official that all required improvements and installations have been completed, or that a performance bond guaranteeing completion has been approved by the City Attorney and filed with the Clerk, or that the Council has agreed that the City will provide the necessary improvements and installations and assess the costs against the subdivider or future property owners in the subdivision.

10. The encumbrance bond, if any.

165.12 FURTHER ACTION BY THE COUNCIL. Upon receipt of the final plat the Council shall, within forty-five (45) days, either approve or disapprove the final plat.

1. In the event that said plat is disapproved by the Council, such disapproval shall be expressed in writing. The Council shall further point out wherein said proposed plat is objectionable in open meeting.

2. In the event that said plat is found to be acceptable and in accordance with this chapter, the Council shall accept the same.

3. The passage of a resolution by the Council accepting the plat shall constitute final approval of the platting of the area shown on the final plat, but the subdivider or owner shall cause such plat to be recorded in the office of the County Recorder and shall file satisfactory evidence of such recording in the office of the Clerk before the City shall recognize the plat as being in full force and effect.

165.13 GENERAL REQUIREMENTS. The following general requirements shall be followed by all subdividers:

1. Relation to Existing Streets.

A. The arrangement, character, extent, width, grade and location of all streets shall be considered in their relation to existing and planned streets, to topographic conditions, to public convenience and safety, and in their appropriate relation to the proposed uses of the land to be served by such streets.

B. The arrangement of streets in a subdivision shall either provide for the continuation or appropriate projection of existing principal streets in surrounding areas or conform to a plan for the

neighborhood approved by the Council to meet a particular situation where topographical or other conditions make continuance or conformance to existing streets impracticable.

2. Acreage Subdivisions.

A. Where the plat submitted covers only a part of the subdivider's plat, a sketch of the prospective future system of the unsubmitted part shall be furnished and the street system of the part submitted shall be considered in the light of adjustments in connection with the street system of the part not submitted.

B. Where the parcel is subdivided into larger tracts than for building lots such parcels shall be divided so as to allow for the opening of major streets and the ultimate extension of adjacent minor streets.

C. Subdivisions showing unplatted strips or private streets controlling access to public ways will not receive approval.

3. Minor Streets. Minor streets shall be so planned as to discourage through traffic. Cul-de-sac streets are permitted where topography and other conditions justify their use. Such streets shall not be longer than five hundred (500) feet and shall terminate with a turnaround, having an outside roadway diameter of at least eighty (80) feet and a street property line diameter of at least one hundred (100) feet. The right-of-way width of the straight portion of such streets shall be a minimum of fifty (50) feet. The property line at the intersection of the turnaround and the straight portion of the street shall be rounded at a radius of not less than twenty (20) feet.

4. Frontage Streets.

A. Where a subdivision abuts or contains an existing or proposed arterial street, the Council may require marginal access streets, reverse frontage with screen planting contained in a non-access reservation along the rear property line, deep lots with rear service alleys, or such other treatment as may be necessary for adequate protection of residential properties and to afford separation of through and local traffic.

B. Where a subdivision borders on or contains a railroad right-of-way or limited access highway right-of-way, the Council may require a street approximately parallel to and on each side of such right-of-way at a distance suitable for the appropriate use of the intervening land, as for park purposes in residential districts, or for commercial or industrial purposes in appropriate districts.

Such distances shall also be determined with due regard for the requirements of approach grades and future grade separations.

5. Half streets. Half streets are prohibited except where essential to the reasonable development of the subdivision in conformity with the other requirements of these regulations, and where the Council finds it will be practicable to require the dedication of the other half when the adjoining property is subdivided. Wherever a half street is adjacent to a tract to be subdivided, the other half of the street shall be platted within such tract.
6. Street Geometrics.
 - A. Street jogs with centerline offsets of less than one hundred twenty-five (125) feet shall be avoided.
 - B. A tangent at least one hundred (100) feet long shall be introduced between reverse curves on arterial and collector streets.
 - C. When connecting street lines deflect from each other at any one point by more than ten (10) degrees, they shall be connected by a curve with a radius adequate to insure a sight distance of not less than two hundred (200) feet for minor and collector streets, and of such greater radii as the City shall determine for special cases.
 - D. Street right-of-way widths shall be as shown in the City's master plan.
7. Intersections.
 - A. Insofar as is practical, acute angles between streets at their intersection are to be avoided.
 - B. Streets shall be laid out so as to intersect as nearly as possible at right angles and no street shall intersect any other street at less than sixty (60) degrees.
 - C. Property lines at street intersections shall be rounded with a radius of ten (10) feet, or of a greater radius where the Council may deem it necessary. The Council may permit comparable cutoffs or chords in place of rounded corners.
8. Street Names. Streets that are in alignment with others already existing and named shall bear the name of the existing streets. The proposed names of new streets shall not duplicate or sound similar to

existing street names. Street names shall be subject to the approval of the Council.

9. Street Grades. Street grades, wherever feasible, shall not exceed five percent (5%), with due allowance for reasonable vertical curves. No street grade shall be less than one-half (1/2) of one percent.

10. Alleys.

A. Alleys shall be provided in commercial and industrial districts, except that the Council may waive this requirement where other definite and assured provision is made for service access, such as off-street loading, unloading and parking consistent with and adequate for the uses proposed.

B. The width of an alley shall be fifteen (15) feet.

C. Alley intersections and sharp changes in alignment shall be avoided, but where necessary, corners shall be cut off sufficiently to permit safe vehicular movement.

D. Dead-end alleys shall be avoided where possible, but if unavoidable, shall be provided with adequate turnaround facilities at the dead end, as determined by the Council.

11. Blocks.

A. No block may be more than one thousand three hundred twenty (1,320) feet or less than five hundred (500) feet in length between the centerlines of intersecting streets, except where, in the opinion of the Council, extraordinary conditions unquestionably justify a departure from these limits.

B. In blocks over seven hundred (700) feet in length, the Council may require at or near the middle of the block a public way or easement of not less than ten (10) feet in width for use by pedestrians and/or as an easement for public utilities.

12. Lots.

A. The lot size, width, depth, shape and orientations shall be appropriate for the location of the subdivision, for the type of development and use contemplated.

B. Minimum lot dimensions and sizes shall conform to the requirements of Chapter 155 of this Code of Ordinances, provided:

- (1) Residential lots where not served by public sewer shall not be less than eighty (80) feet wide or less than ten thousand (10,000) square feet in area.
 - (2) Depth and width of properties reserved or laid out for commercial and industrial purposes shall be adequate to provide for the off-street parking facilities required by the type of use and development contemplated.
 - (3) Corner lots for residential use shall have an extra ten (10) feet of width to permit appropriate building setback from and orientation to both streets.
 - C. The subdividing of the land shall be such as to provide, by means of a public street, each lot with satisfactory access to an existing public street.
 - D. Double frontage and reverse frontage lots shall be avoided except where essential to provide separation of residential development from traffic arteries or to overcome specific disadvantages of topography and orientation. A planting screen easement of at least ten (10) feet and across which there shall be no right of access, shall be provided along the line of lots abutting such a traffic artery or other disadvantageous use.
 - E. Side lot lines shall be substantially at right angles to straight street lines or radial to curved street lines.
13. Building Lines. Building lines shall be shown on all lots within the platted area. The Council may require building lines in accordance with the needs of each subdivision.
14. Easements.
- A. Easements across lots or centered on rear or side lines shall be provided for utilities where necessary and shall be at least ten (10) feet wide.
 - B. Where a subdivision is traversed by a water course, drainage way, channel or stream, there shall be provided a storm water easement or drainage right-of-way conforming substantially with the lines of such water course, and further width for construction, or both, as will be adequate for the purpose.
15. Plat Markers. Markers shall be placed at all block corners, angle points, points of curves in streets, and all such intermediate points as shall be required by the Council. The markers shall be of such material, size and length as may be approved by the Council.

165.14 IMPROVEMENTS REQUIRED. The subdivider shall install and construct all improvements required by this chapter. All required improvements shall be installed and constructed in accordance with the specifications and under the supervision of the Council and to its satisfaction.

1. Streets and Alleys. All streets and alleys within the platted area which are dedicated for public use shall be brought to the grade approved by the Council.
2. Roadways. All roadways shall be surfaced with portland cement concrete or with asphaltic concrete over a crushed stone base as the Council may require.
3. Curb and Gutter. Curb and gutter shall be required on all streets. All curb and gutter shall be constructed to the grade approved by the Council.
4. Sidewalks. Sidewalks may be required by the Council if they are considered necessary for the general welfare and safety of the community. Sidewalks shall be constructed to the grade approved by the Council.
5. Water Lines. Where a public water main is reasonably accessible, the subdivider shall connect with such water main and provide a water connection for each lot with service pipe installed to the property line in accordance with the Water Department standards, procedure and supervision.
6. Sewers.
 - A. Where a public sanitary sewer is reasonably accessible, the subdivider shall connect or provide for the connection with such sanitary sewer and shall provide within the subdivision the sanitary sewer system required to make the sewer accessible to each lot in the subdivision. Sanitary sewers shall be stubbed into each lot. Sewer systems shall be approved by the Council and the State Department of Health and the construction subject to the supervision of the Council.
 - B. Where sanitary sewers are not available, other facilities, as approved by the Council and the State Department of Health, must be provided for the adequate disposal of sanitary wastes.
 - C. Adequate provisions shall be made for the disposal of storm waters, subject to the approval of the Council.

165.15 COMPLETION OF IMPROVEMENTS. Before the Council will approve the final plat, all of the foregoing improvements shall be constructed and accepted by formal resolution of the Council. Before passage of said resolution of acceptance, the Clerk shall report that said improvements meet all City specifications and ordinances or other City requirements, and the agreements between subdivider and the City.

165.16 PERFORMANCE BOND. The completion requirement may be waived in whole or in part if the subdivider will post a performance bond with the Council guaranteeing that improvements not completed will be constructed within a period of one (1) year from final acceptance of the plat; but final acceptance of the plat will not constitute final acceptance by the City of any improvements to be constructed. Improvements will be accepted only after their construction has been completed, and no public funds will be expended in the subdivision until such improvements have been completed and accepted by the City.

165.17 VARIANCES. Where in the case of a particular proposed subdivision, it can be shown that strict compliance with the requirements of this chapter would result in extraordinary hardship to the subdivider because of unusual topography or other conditions, the Council may vary, modify or waive the requirements so that substantial justice may be done and the public interest secured. Provided, however, such variance, modification or waiver will not have the effect of nullifying the intent and purpose of this chapter. In no case shall any variance or modification be more than minimum easing of the requirements and in no instance shall it be in conflict with any requirement of Chapter 155 of this Code of Ordinances, and such variances and waivers may be granted only by the affirmative vote of three-fourths (3/4) of the members of the Council.

165.18 CHANGES AND AMENDMENTS. Any regulations or provisions of this chapter may be changed and amended from time to time by the Council, provided however, that such changes or amendments shall not become effective until after a public hearing has been held, public notice of which shall have been published at least once, not less than four (4) or more than twenty (20) days before the date of the hearing.
